Micro-V® Stretch Fit®

Stretch Fit Drive Systems Demand New Solutions . . . **We Have the First & Only Answer: NAPA Micro-V® Stretch Fit® Belts** **Revolutionary TwistLock™ Technology!**

Stretch Fit belts may look like standard V-ribbed belts but inside they are dramatically different. The secret is NAPA's new TwistLock Technology- where the strength and flexibility of advanced polyamide tensile cord is surrounded by a specially formulated adhesive that literally locks on to the cord- allowing the cord to elongate and stretch but never lose tension.

In addition, our patented highly engineered EPDM belt ribs are extremely resistant to oil leaks, wear and pilling.

Prior to installation, Stretch Fit belts are shorter than the actual working length, but once they are installed they automatically tension, and continue to maintaining that proper tension over the life of the belt and ensuring optimum load-carrying capacity.
