

## New Nissan XL® V-belts

NAPA Belts/Hose strives to provide products that are the most technologically advanced in the marketplace. Our products meet or exceed OEM requirements and are designed to solve common problems for the professional service technician. Recently, NAPA Belts/Hose released a new premium XL® V-belt designed to enhance performance on specific Nissan applications. These belts are manufactured with advanced materials and exact dimensional tolerances to meet the demanding requirements of these vehicles. As certain Nissan vehicles age, system alignment and pulley wear can lead to early belt failure for standard V-belt constructions. Our customers have struggled with early belt failure from all competitors, and have turned to NAPA Belts/Hose to solve the problem. The new belts differ both in construction and dimension from NAPA Belts/Hose standard XL V-belts. By adjusting materials, top width and ride out (where the belt rides in the pulley), the new NAPA Belts/Hose XL V-belt provides greater stability and performance.

Features and benefits of the modified XL® V-belts:

Features	Benefits
Additional overcord layer	Increased lateral stability in the drive
Fiber-loaded reinforcements & molded notches (FleetRunner notch pattern)	Reduce maintenance & extend belt life
Higher ride out (OE Fit)	Peak operating performance of the components

The applications for these new sizes are:

New Part	Old Part	Application	VIO
25-9361M	25-9360	1986-95 Pickup/Pathfinder; V-6 3.0L & 4-Cyl. 2.4L 1996-04 Frontier/Xterra 4-Cyl. 2.4L	691,150
25-9362M	25-9365	1996-97 Pickup; 4-Cyl. 2.4 L	117,765
25-9452M	25-9451	1990-95 Pickup; 4-Cyl. 2.4 L	243,815
25-9453M	25-9455	1996-97 Pickup; 4-Cyl. 2.4 L	117,765
25-9492M	25-9495	1998-04 Frontier, 2000-04 Xterra; 4-Cyl. 2.4L	224,337
25-9551M	25-9555	1990-95 Pickup/Pathfinder; V-6 3.0L	176,888

Catalog applications have been updated in all catalog systems. The part numbers have an "M" at the end of the standard XL V-belt nomenclature signifying a modified XL belt size.

Make sure to present the advantages of these belts to all your technicians who work on imports. NAPA Belts/Hose belt supplier is the only aftermarket supplier to offer this modified V-belt for these applications!

NAPA Belts/Hose continues to lead the market in products that solve problems and provide optimum performance.
