* The exact percentage of ingredients in this product is proprietary information. Only components which may be health hazards as defined in 29 CFR 1910.1200 are listed above. Information necessary for emergency health or health hazard investigations will be released to medical or health and safety personnel under signed confidentiality agreements.

MATERIAL SAFETY DATA SHEET

Effective Date: April 19, 1991 Code: Brake Lining Material Page:2

Section 2 - HAZARDOUS INGREDIENTS (cont.)

- (A) As particulates not otherwise regulated.
- (B) Respirable dust exposure limits for these components are 5mg/m3.

Section 3 - HAZARDS IDENTIFICATION

- -Signs and Symptoms of Exposure None during normal industrial use.
- -Routes of Entry

Inhalation: Yes Skin: Yes Ingestion: Unlikely

- **Note: Dry grinding of the cured or partially cured material may produce an inhalation hazard as a nuisance dust.
- -Health Hazards (Acute and Chronic)
 Skin contact with partially cured pro

Skin contact with partially cured product may cause an allergic skin reaction similar to poison ivy in sensitive individuals. Prolonged or repeated skin contact may cause irritation.

-Carcinogenicity

NTP: No IARC Monographs: No OSHA Regulated: No

-Medical Conditions generally aggravated by exposure None during normal industrial use. Persons with pre-existing skin disorders may be more susceptible to irritation from skin contact.

Section 4 - FIRST AID MEASURES

-Emergency and First Aid Procedures

Eye Contact: Immediately flush eyes with water for 15 minutes. If

irritation persists, consult a physician.

Skin Contact: In case of irritation, wash with soap and water. Treat

as for poison ivy.

Inhalation: Remove to fresh air.

Ingestion: No known hazard during normal industrial use. First aid

not applicable.

Section 5 - FIREFIGHTING MEASURES

Flash Point: N/A LEL: N/A UEL: N/A

Flammability: N/A

Extinguishing Media: ABC Dry Chemical as appropriate for surrounding fire.

MATERIAL SAFETY DATA SHEET

Effective Date: April 19, 1991 Code: Brake Lining Material Page:3

Section 5 - FIREFIGHTING MEASURES (con't)

Special Firefighting Precautions: Suggested respiratory protection:

Positive pressure, self-contained breathing apparatus approved by

NIOSH/MSHA

Unusual Fire & Explosion Hazards: This material may produce irritating

smoke in smoldering fire

Section 6 - ENVIRONMENTAL RELEASE MEASURES

-Steps to be taken in case material is released or spilled

Material is a solid. Sweep (scoop) up and remove to a chemical disposal area. Prevent entry into natural bodies of water. Cure at 300 degrees F for a minumum of 15 minutes, if landfill disposal is approved.

Section 7 - HANDLING AND STORAGE

- -Precautions to be Taken in Handling and Storage Segregate stored material from oils and strong oxidizing agents. Keep away from electrical discharges, welding, open flames, extreme heat, and other sources of potential ignition. During transportation, do not expose to extremely hot temperatures.
- -Other Precautions
 No special DOT classification

Section 8 - EXPOSURE CONTROLS/PERSONAL PROTECTION

Respiratory Protection: None required during normal industrial use.

Respiratory protection suitable for the measured nuisance dust level encountered is recommended during dry grinding. Minimally, a NIOSH approved dust mask should be worn during dry grinding of

cured materials.

Ventilation: Local Exhaust - None during normal industrial use.

Recommended during dry grinding.

Mechanical (general) - None during normal industrial use.

May be required during dry grinding.

Special - None during normal industrial use. Other - None during normal industrial use.

Protective Gloves: Wear impervious gloves to prevent repeated or prolonged skin contact.

MATERIAL SAFETY DATA SHEET

Effective Date: April 19, 1991 Code: Brake Lining Material Page:

Section 8 - EXPOSURE CONTROLS/PERSONAL PROTECTION (con't)

Eye Protection: None during normal industrial use. Goggles are

recommended if dry grinding produces flying particles.

Other Protective Clothing or Equipment: As necessary to prevent prolonged skin contact.

Work/Hygienic Practices: Standard hygienic practices during normal

industrial use. Wash skin with soap and water.

Section 9 - PHYSICAL AND CHEMICAL PROPERTIES

Boiling Point/Melting Point: N/A Specific Gravity (H20=1): 1.5-2.5

Vapor Pressure (mmHg): Very low (slight resin odor) Vapor Density (air=1): N/A Evaporation Rate: N/A (butyl acetate=1) Solubility in Water: Insoluable Appearance and Odor: Dark gray solid. Slight resin odor.		
Section 10 - STABILITY AND REACTIVITY		
Stability: Stable Conditions to Avoid: No known hazard during normal industrial use. Avoid temperatures greater than 800 degrees F.		
Incompatibility (materials to avoid): Strong acids and other oxidizing agents		
-Hazardous Decomposition or By Products Normal combustion products: carbon monoxide, carbon dioxide, and soot Product specific combustion products: ammonia, oxides of nitrogen, phenols, and aldehydes Hazardous Polymerization: Will not occur. Conditions to Avoid: N/A		
Section 11 - TOXICOLOGICAL INFORMATION		
Information Not Available		
Section 12 - ECOLOGICAL INFORMATION		
Information Not Available		
MATERIAL SAFETY DATA SHEET Effective Date: April 19, 1991 Code: Brake Lining Material Page:5		

-Waste Disposal Method

Section 13 - DISPOSAL CONSIDERATIONS

Dispose according to applicable federal, state and local regulations.

Material may be considered inert after curing for 15 minutes at 300 degrees F.

Section 14 - TRANSPORT INFORMATION

Information Not Available

Section 15 - REGULATORY INFORMATION

-California (Proposition 65) Information
This product, as sold, is not believed to contain any chemical known to
the state of California to cause cancer, birth defects, or other
reproductive "harm".

Section 16 - OTHER INFORMATION

-SARA Title III Information

This product may contain phenol and, therefore, may be subject to the reporting requirements of Section 313, Title III of the Superfund Amendments and Reauthorization Act (SARA) of 1986 and 40 CFR Part 372 or used in sufficient quantities.
