

# SKF C-clip retainers

SKF now offers a comprehensive product line of C-clip retainers. SKF C-clips complement the Generation 1 wheel bearings, and are used to retain the bearing into the knuckle assembly.

C-clips can often become rusted or damaged during use or removal. Engineered to OEM specifications, the new SKF C-clip provides a secure and reliable fit for a newly installed bearing hub unit.

Check availability for **CIRKIT1**, an assortment kit offering a discount on the top 12 part numbers. It includes 2 of each of the following:

**CIR63, CIR114, CIR115, CIR128, CIR130, CIR143, CIR171, CIR180, CIR186, CIR187, CIR237 and CIR259.**

# SKF C-clip retainers

## Chrysler/Dodge/Plymouth applications
