The NAPA Difference

QUALITY

100% NEW Premium Bearings Quiet, vibration-free, long life under extreme operating conditions
100% NEW Premium Brushes Extended life and reliability of the alternator and starter
100% NEW Springs, Cap and Rollers . . . Ensures positive starts in the most extreme conditions

CONFIDENCE

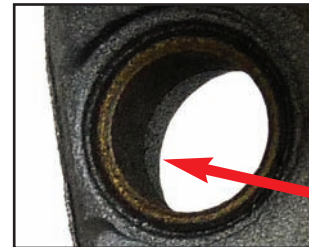

Below are just two of the MANY differences that set NAPA Rotating Electrical apart from the competition:

NAPA

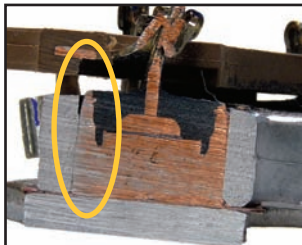

NAPA starters use a needle bearing to ensure extended service life on your vehicle.

Bearing

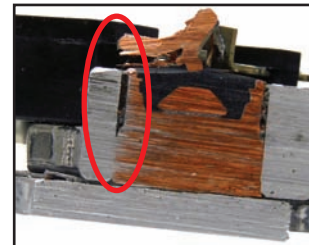

Competition

Bushing

NAPA

NAPA alternators use a higher amperage large area diode that will run cooler and extend the service life of the alternator.

Competition

VALUE – Competitive pricing, unsurpassed quality and peace of mind.
