

NAPA POWER SPORT

- AGM batteries (black case) are sealed, providing maintenance-free performance – No water to check, no spillage, no leaks under normal operating conditions
- Special active material compounded to resist vibration from wave pounding & shocks; heavy duty glass mat resists shedding
- Heat-sealed cover & sealed posts protect against corrosion & seepage; tough polypropylene container resists gas, oil & impact, even in extreme weather conditions
- Special lead alloy reduces self discharge, maximizing starting power, even after months of storage
