GHS07	
· Signal word Warning	
· Hazard-determining components of labelling:	
ethanediol	
2,2'-oxybisethanol • Hazard statements	
H302 Harmful if swallowed.	
H319 Causes serious eye irritation.	
· Precautionary statements	
P101 If medical advice is needed, have product container or label at hand.	
P102 Keep out of reach of children.	
P103 Read label before use.	
P280 Wear protective gloves / eye protection.	
P264 Wash thoroughly after handling.	
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remov	e contact lenses,
if present and easy to do. Continue rinsing.	
P362 Take off contaminated clothing and wash before reuse.	
P337+P313 If eye irritation persists: Get medical advice/attention. P302+P352 IF ON SKIN: Wash with plenty of soap and water.	
• Hazard description:	
· WHMIS-symbols:

· vPvB: Not applicable.

3 Composition/information on ingredients

- · 3.2 Mixtures
- · Description: Mixture of substances listed below with nonhazardous additions.

· Dangerous components:		
CAS: 107-21-1 EINECS: 203-473-3 Index number: 603-027-00-1	ethanediol Xn R22 Acute Tox. 4, H302	50-100%
CAS: 111-46-6 EINECS: 203-872-2 Index number: 603-140-00-6	2,2'-oxybisethanol Xn R22 Acute Tox. 4, H302	<10%
CAS: 1310-73-2 EINECS: 215-185-5 Index number: 011-002-00-6	sodium hydroxide C R35 Skin Corr. 1A, H314	<0,5%
· Additional information: For	the wording of the listed risk phrases refer to section 16.	

4 First aid measures

- · 4.1 Description of first aid measures
- · General information:

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact:
- Immediately wash with water and soap and rinse thoroughly.

If skin irritation continues, consult a doctor.

· After eye contact:

Remove contact lenses if worn.

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

· After swallowing:

Rinse out mouth and then drink plenty of water.

Do not induce vomiting; call for medical help immediately.

- · 4.2 Most important symptoms and effects, both acute and delayed
- Cramp Thirst
- Headache
- Dizziness
- Nausea
- Disorientation
- · Hazards No further relevant information available.
- **4.3 Indication of any immediate medical attention and special treatment needed** Contains ethylene glycol. Consult literature for specific antidotes. Monitor circulation, possible shock treatment.

Medical supervision for at least 48 hours.

5 Firefighting measures

- · 5.1 Extinguishing media
- Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions.
- For safety reasons unsuitable extinguishing agents: None.
- **5.2 Special hazards arising from the substance or mixture** Formation of toxic gases is possible during heating or in case of fire.
- 5.3 Advice for firefighters

• Protective equipment: Wear self-contained respiratory protective device.

- Wear fully protective suit. • Additional information Cool endangered receptacles with water spray.
- No further relevant information available.

6 Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation
- · 6.2 Environmental precautions: Do not allow to enter sewers/ surface or ground water.
- · 6.3 Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Send for recovery or disposal in suitable receptacles.

Dispose contaminated material as waste according to item 13.

- · 6.4 Reference to other sections
- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7 Handling and storage

- 7.1 Precautions for safe handling Ensure good ventilation/exhaustion at the workplace. Prevent formation of aerosols.
 Information about fire - and explosion protection: No special measures required.
 7.2 Conditions for safe storage, including any incompatibilities
 Storage:
- Requirements to be met by storerooms and receptacles: No special requirements.
- Information about storage in one common storage facility: Store away from foodstuffs.
- Store away from oxidizing agents.
- Further information about storage conditions: Store in cool, dry conditions in well sealed receptacles.

GHS

Printing date 08.07.2013

Revision: 08.07.2013

Trade name: Pentofrost A1

(Contd. of page 5)

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

· Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

• For the permanent contact gloves made of the following materials are suitable: Butyl rubber, BR

Neoprene gloves Nitrile rubber, NBR

· Eye protection:

Safety glasses

· Body protection:

Not required under normal conditions of use. Protection may be required for spills.

- Limitation and supervision of exposure into the environment No further relevant information available.
- **Risk management measures** See Section 7 for additional information. No further relevant information available.

9.1 Information on basic physical a General Information	and chemical properties	
· Appearance:		
Form:	Liquid	
Colour:	Red	
· Odour:	Light	
· Odour threshold:	Not determined.	
· pH-value at 20 °C:	7,9 (50% solution)	
 Change in condition 		
Melting point/Melting range:	Undetermined.	
Boiling point/Boiling range:	347 °F / 175 °C

· Flash point:	262 ºF/ 128 °C	
· Flammability (solid, gaseous):	Not applicable.	
· Ignition temperature:	>500 °F />260 °C	
· Decomposition temperature:	Not determined.	
· Self-igniting:	Product is not self-igniting.	
· Danger of explosion:	Product does not present an explosion hazard.	
 Explosion limits: Lower: Upper: 	3,2 Vol % 53,0 Vol %	
· Vapour pressure at 20 °C:	0,1 hPa	
 Density at 20 °C: Relative density Vapour density Evaporation rate 	1,13 g/cm ³ Not determined. Not determined. Not determined.	
 Solubility in / Miscibility with water: Partition coefficient (n-octanol/wat 	Fully miscible. er): Not determined.	
 Viscosity: Dynamic: Kinematic: 	Not determined. Not determined.	
 Solvent content: Organic solvents: 9.2 Other information 	Not determined. No further relevant information available.	

10 Stability and reactivity

- · 10.1 Reactivity
- · 10.2 Chemical stability
- · Thermal decomposition / conditions to be avoided:
- No decomposition if used and stored according to specifications.
- 10.3 Possibility of hazardous reactions No dangerous reactions known.
- 10.4 Conditions to avoid No further relevant information available.
- 10.5 Incompatible materials: No further relevant information available.

11 Toxicological information

· 11.1 Information on toxicological effects

· Acute toxicity:

· LD/LC50 values relevant for classification:

107-21-1 ethanediol

Oral LD50 5840 mg/kg (rat)

Dermal LD50 9530 mg/kg (rabbit)

Primary irritant effect:

- on the skin: Slight irritant effect on skin and mucous membranes.
- · on the eye: Irritating effect.
- · Sensitization: No sensitizing effects known.
- Subacute to chronic toxicity: Vapours have narcotic effect.

· Additional toxicological information:

The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version: Harmful

Irritant

Toxic and/or corrosive effects may be delayed up to 24 hours.

• Repeated dose toxicity: May cause damage to organs through prolonged or repeated exposure .

12 Ecological information

- · 12.1 Toxicity
- · Aquatic toxicity: No further relevant information available.
- · 12.2 Persistence and degradability Moderately /partly biodegradable
- 12.3 Bioaccumulative potential Does not accumulate in organisms.
- 12.4 Mobility in soil No further relevant information available.
- · Additional ecological information:
- · General notes:

This statement was deduced from products with a similar structure or composition.

Avoid transfer into the environment.

Due to available data on eliminability/decomposition and bioaccumulation potential a prolonged damage of the environment is unlikely.

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

- · 12.5 Results of PBT and vPvB assessment
- · PBT: Not applicable.
- · **vPvB:** Not applicable.

• **12.6 Other adverse effects** No further relevant information available.

13 Disposal considerations

· 13.1 Waste treatment methods

· Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system. Can be burned with household garbage after consulting with the waste disposal facility operator and the pertinent authorities and adhering to the necessary technical regulations.

Can be reused after reprocessing.

Contact waste processors for recycling information.

· Uncleaned packaging:

• Recommendation: Disposal must be made according to official regulations.

· Recommended cleansing agents: Water, if necessary together with cleansing agents.

Transport information
