NIN-2405

NIN-70300A

NIN-406A

NIN-2405

24V Mobility Power Charger

- 5 Amp charge rate
- Processor Controlled charging for standard and AGM batteries
- Mountable
- LED status indicators
- Ring terminals/clamps/XLR connectors
- Perfect for many battery operated devices with hard to access batteries.

NIN-70300A

20/40/70/300 Wheel Charger

- Fully Automatic or timer controlled charging of 12 Volt Batteries
- Microprocessor Controlled – faster, smarter, safer for standard & AGM batteries
- 2 1/4 hour timer
- Convenient clamp holder & rubber grip
- Oversized selector switches
- Extra long 9 ft. AC line cord
- Dual, heavy-duty, high efficiency transformers for more & better heat dissipation
- 600 Amp clamps
- Reconditions sulfated batteries

NIN-406A

6 Amp 6/12 Volt Multi-Battery Charger

- 4 Independent Microprocessor Controlled charging banks
- Individual LED battery status indicators for each bank
- Overcharge protection
- Fan cooled for dependability and peak performance
- Multi-stage charging algorithm
- Safe-start, reverse polarity and short circuit protection
- 4 detachable 6ft. cables with 75 Amp, color-coded clamps
- Heavy-duty, mountable, steel case for durability
- Charges 6/12V lead-acid and AGM batteries
