

NAPA COMMERCIAL and MARINE GEL CELL

GROUPS 30H, 4D, 8D, 24M and 27M

- Sealed maintenance free construction, under normal operating conditions, means never adding water
- 100% “Gelled” electrolyte; can be operated in almost any position
- Dual terminals allow multiple hookup and usage (8241, 8271)
- Battery will operate under water if accidentally submerged
- Vibration damage resistant
- Designed for use in a wide range of deep cycle applications: commercial marine, marine, RV, solar, wheel chairs, emergency lighting, or any application where power and a leak-proof design is wanted or required
