

BladeRunner® Belt Product Features

The BladeRunner belt is an aftermarket belt designed to fit specific applications. The BladeRunner belt provides exact OE fit, construction and performance when installed on leading lawn, garden and outdoor power equipment.

- Meets or exceeds the performance of the OE belt on the equipment that it is applied to, which reduces costly downtime and labor associated with belt replacement.
- Utilizes Aramid Cord construction which has a higher tensile strength than steel.
- Exact fit to ensure smooth engagement of clutch and reduced harshness of operation.
- Various constructions (V, Cogged, Synchronous) available in order to meet the needs of the customer.
- Superior performance over standard fractional horsepower belts on recommended applications.
