

## 90° Molded Heater Hose

Designed for difficult heater hose applications requiring sharp 90° bends. Hundreds of applications covered with various sizes. Use with hose connectors and for curved small I.D. coolant hose coverage. Similar to SAE 20R3 Class D-2. Cut hose to fit specific applications.

**Tube:** Resists electrochemical hose degradation.

**Temperature Range:** -40°F (-40°C) to +257°F (+125°C).
