

Gas Pump Hose Retractable Cable Type (Softwall)

Recommended for dispensing gasoline from standup or retractable cable-type pumps where hose is exposed. Also for gasoline and oil transfer. U.L. 330 approved. Withstands gasohol and additives used in lead-free gasoline.

Cover: Nitrile. Resists weather, abrasion, oil and gasoline.

Reinforcement: Braided, with built-in static wire. Provides static conductive assemblies.

Tube: Specially compounded nitrile for resistance to gasoline and oil. Handles working temperatures to +180°F (+82°C).

Coupling: Permanent male 3/4" thread size.
