

Bearings

1

Features:

- 100% New Electric Motor Quality
- Extreme temperature grease and high temperature double lip seals
- Benefit:**
- Quiet, vibration-free, long life under extreme operating conditions

Rotors and Stators

2

Feature:

- Rotors and Stators are electronically tested for maximum output and insulation integrity
- Benefit:**
- Guaranties maximum output and long service life

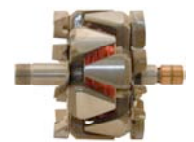

Slip Rings

3

Feature:

- Slip rings are precision polished, turned or replaced
- Benefit:**
- For maximum brush contact, consistent output and longer life

Rectifiers

4

Features:

- Rectifiers 100% tested with the latest test equipment
- Or replaced with a new rectifier
- All are Press Fit Welded Construction
- Benefits:**
- Longer life under extreme operating conditions
- Tester predicts the life of the rectifier

Brushes

5

Feature:

- All brushes replaced with 100% new high quality brushes
- Benefit:**
- Extends life and reliability of the Alternator
