SERVICEABLE PRODUCT WARRANTY PROGRAM: Repair centers have been established to recondition GEARWRENCH classified as serviceable products in our price sheet. Serviceable products are those tools having sub-assemblies which, by design, localize the major wear resulting from repetitive usage. Because this sub-assembly can be separately repaired or replaced to recondition the entire tool, the tool owner is able to realize substantial savings in tool maintenance costs.

This warranty is NOT applicable for damage by accident, incorrect use, abuse, modification or loss of parts. This warranty shall extend only to the original purchaser with proof of purchase. In the event any warranty claim hereunder is made by a purchaser not located within the United States, Canada, or Puerto Rico, the purchaser should contact GEARWRENCH by telephone or in writing to determine the location to which the defective product should be sent for warranty service.

This warranty gives you specific legal rights, and you may also have other rights which may vary from state to state.

90 DAY CALIBRATION GUARANTEE: If within 90 days from the date of purchase, a GEARWRENCH torque wrench is found to be outside of the stated calibration specification, the manufacturer will recalibrate it free of charge.
