

## **WARRANTY**

Rare Parts offers a limited lifetime warranty on steering and suspension parts extended to the retail customer. It is limited to the original purchaser of any noncommercial vehicle on which the product was installed, for as long as the same owner owns the vehicle.

A copy of the original purchase receipt must be present with the defective part and returned to NAPA.

Rare Parts warranty does not cover parts that are damaged due to improper installation, lack of lubrication, abuse or when used for anything other than the original intended use.

Labor cost for removal and installation are not covered.
