Innovation. Selection. Solutions.

Hardware Express has the electrical and lighting products you depend on with the latest technology to power your business.

How to Select a Replacement Light Bulb

Where used

- Indoor vs. outdoor
- With or without a dimmer

Energy usage

- Lower wattage for energy savings
- Higher wattage = more electricity used

Brightness desired

- More lumens for brighter light
- Lumens = brightness

Bulb life

- Longer life for fewer replacements
- Shorter life = more bulbs to purchase

TECHNOLOGY	INCANDESCENT	HALOGEN	CFL	LED	
					
	Incandescent Lamp Wattage	Halogen Lamp Wattage	CFL Lamp Wattage	LED Lamp Wattage	Rated Lumen Range
	100	72	23	15	1490-2600
	75	53	20	9.5	1050-1489
	60	43	13	9	750-1049
	40	28	10	6	310-729
	25	18	7	4	220

*Based on the FTC labeling requirements of 3 hours per day, 365 days per year at \$0.11 per kWh

SUBSTITUTE® ULTRA HE LED T8 24" RETROFIT KIT

- The SYLVANIA ULTRA HE LED T8 retrofit kits are an energy saving and longer-life alternative to replace traditional fluorescent T12 or T8 lamps
- Compared to traditional fluorescent lamps, ULTRA HE LED T8 lamps offer higher efficacy and equivalent light output
- Lamp requires dedicated external driver and non-shunted G13 medium bi-pin lamp holders which are included in the retrofit kit
- For retrofit application, lamps and drivers are offered together as 1-lamp, 2-lamp, 3-lamp and 4-lamp retrofit kits
- 120-277 volt

ITEM NO.	MFG #	DESC.	WATTS	BASE	LUMENS	HOURS AVG. LIFE	CRI	COLOR TEMP.	LENGTH

SUBSTITUTE® ULTRA LED T8 LINEAR LAMPS

- OSRAM SubstiTUBE IS LED T8 lamps are an energy saving alternative, designed to replace traditional fluorescent T8 lamps
- These shatterproof LED T8 lamps contain no mercury, provide instant light and a uniform light distribution
- Engineered to operate on existing instant start electronic T8 ballasts, these lamps minimize labor and recycling costs
- Because the SubstiTUBE IS LED T8 is not affected by switching cycles, the use of occupancy or vacancy sensors can now be installed with the existing instant start ballasts for optimal energy savings
- 120-277 Volt
- G13 base
- 48 in. length
- 9 bulbs per case

COMPACT FLUORESCENT LAMPS

- The savings advantage of fluorescent versus incandescent: Less energy • Fluorescent lamps save up to 80% in energy costs...in the same amount of light • Longer life • Fluorescent lamps last up to 10,000 hours versus approximately 750 hours for incandescent • Sold each

ITEM NO.	DESC.	COLOR/ FINISH	BASE	WATTS	LUMENS	LAMP LIFE (HOURS)	CRI	COLOR TEMP.	LENGTH
2486768	CFS13W/827	SOFT WHITE	GX23	13	800	12000	82	2700K	7.1"

Due to escalating costs of rare earth elements used in the production of fluorescent and compact fluorescent lamps, prices on these products now follow the market on a competitive basis and are subject to change without notice.

COMPACT FLUORESCENT LAMPS

- The savings advantage of fluorescent versus incandescent: Less energy
- Fluorescent lamps save up to 80% in energy costs...in the same amount of light
- Longer life • Fluorescent lamps last up to 10,000 hours versus approximately 750 hours for incandescent • Sold each

Color Temperature

It's important to choose the right color temperature for the task to be performed or the room to be illuminated. The chart below will show you what you need to know about color temperature.

Color Temperature Scale

6500K

5000K

- ◀ Natural or Daylight light. Ideal for reading – cooler. Bluish Light

4100K

3500K

- ◀ Cool, Neutral, or Bright White light. Great for white or chrome fixtures and other work spaces. White Light

3000K

2700K

- ◀ Warm White or Soft White light. Highlights rich colors like dark wood. Yellowish Light

GENERAL T8 LENSED RECESSED TROFFERS

- For mounting heights up to 25' that require high light levels • Ideal for medium to heavy-duty manufacturing areas, warehousing, storage or task lighting
- Solid-top, 10% uplight or 20% uplight reflector is die-embossed, constructed of heavy-gauge cold rolled steel and painted after fabrication • Baked White enamel finish • Pressure-lock lampholders enclosed in a snap-in turret housing • Accepts plug-in option for 1, 2 or 3 primary circuits • Thermally protected, resetting, Class P, HPF, non-PCB, CSA Certified ballast standard • Sound rating depends on lamp/ballast combination • AWM, TFN and THHN wire used throughout, rated for required temperatures • For unit or row installations, surface or suspended mounting
- Ballast voltage: Multi-volt • Model 2GT8 4 32 A12 MVOLT 1/4 GEB10IS •

ITEM NO.	MFG #
Baked white enamel finish. Uses 4 lamps (not included). SX-0457252	2GT8 4 32 A12 MVOLT 1/4 GEB10IS

Why buy an LED?

SYLVANIA ULTRA LED products are engineered to perform better with lower operating costs.

What does this mean to you?

- **Energy savings**—up to 86% over traditional halogen and incandescent light bulbs.

Energy saving alternatives to incandescent

Electricity cost to run one lamp for 3 hours
per day, 365 days a year.

100W Incandescent A lamp (1600 lumens) **\$12.05**

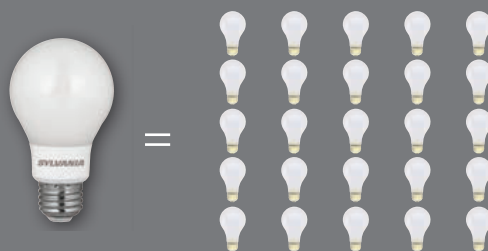

15W LED A lamp (1600 lumens) **\$1.81**

60W Incandescent A lamp (850 lumens) **\$7.22**

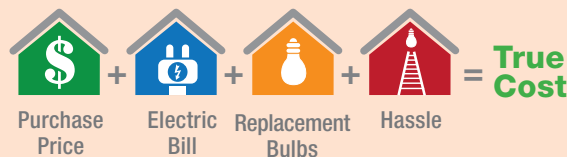

9W LED A lamp (800 lumens) **\$1.08**

- **Longer life**—up to 25x longer in comparison to traditional lighting which means less bulbs to purchase.

One LED lasts as long as 25 incandescents

Compare and save with LEDs.

With new alternatives to traditional incandescent bulbs, you will get more light per dollar—guaranteed. Consider the true cost of your light bulbs.

What you need to know about lumens?

Lumens = Brightness!

The more lumens, the brighter the light.

Watts = Energy consumed!

The more watts used, the higher the energy expense.

How to shop using lumens

LED bulbs are labeled with lumens, rather than traditional wattage.

**310-749
Lumens**

LED 6W

**750-1049

**LEVITON****600 WATT UNIVERSAL OCCUPANCY SENSOR WITH COLOR CHANGE KIT**

- PIR wall box occupancy detector for use with LED, CFL, and incandescent lamps
- Color change kit provided in white, ivory, and light almond • Single-pole
- Adjustment: Auto on • Pattern degrees: 180 • Coverage (Sq. Ft.): 900 Sq. Ft.
- Time Adjustment: 30s-30m • Load Rating: 600W Incandescent, 150W LED and CFL
- Voltage: 120 Volt AC 60 Hz • Neutral: Not required • Color: white, ivory, light almond

ONE-ON-ONE SERVICE
 By Phone, E-mail, or in Person.

YOU CAN COUNT ON US AS YOUR BUSINESS PARTNER!

From free organization tools to full service inventory management programs, our solutions allow you to better manage your inventory, improve productivity, and reduce costs. These programs can be customized to fit your specific business needs.

ORGANIZE

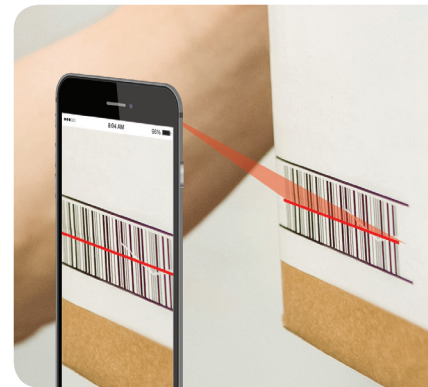

Product Identification

Work with your Hardware Express Account Manager or visit our website to determine the most important products for all of your stocking locations, including your stockrooms, trucks and warehouses. This is the first step toward maintaining the right product mix and building your just-in-time inventory replenishment.

Bin Labels

Organize your inventory and easily access products with our free online Bin Labels tool. Each color-coded label includes the product's part number, description, image, and barcode for quick and intuitive identification.

REPLENISH

Mobile Scan to Order

Our free mobile app includes all of the convenient features of our mobile website, plus it enables you to quickly order items by scanning product barcodes on your bin labels or UPC codes on product packaging—all without specialized equipment.

Supplyware®

Accelerate your inventory check-in and check-out process with our comprehensive inventory management system. Supplyware manages inventory min/max levels and provides real-time visibility to your stock levels and usage, and automates ordering and replenishment.

e-HardwareExpress.com

Creating a Favorites List allows you to keep the items you order on a regular basis easily accessible. You can use these lists for job-specific projects or as a great tool to assist you in reordering products you use often. Creating Bin Labels from your Favorites List is as easy as 1.2.3.
