

# THE GOSPEL PROJECT<sup>®</sup> FOR ADULTS

## Overall Goal:

To provide biblical theology within a systematic framework. This is accomplished over the course of three years through frequent retellings of the overarching gospel narrative of Scripture.

## FOUR COMPONENTS

- Bible Overview
- Systematic Theology
- Gospel Grid
- Biblical Theology

(Note: There are some quarters in which these components overlap. For example, the systematic theology presented in the fall of 2012, "The Doctrine of Revelation," is arranged according to the gospel grid [God-Man-Christ-Response]. The goal is to marry systematic and biblical theology so that participants continually journey through the basics of the gospel and the outline of the Scripture's grand narrative.)
