

CLEANING / MAINTENANCE STORAGE INSTRUCTIONS

scale by wiping the base with a cloth dampened with undiluted white vinegar. (see Figure 3)

- Rinse with clean warm water to remove the cleaning solution before disinfecting the tank.

To Disinfect Humidifier Base and Tank:

- Fill humidifier tank 1/2 full with water and 1/2 tablespoon of chlorine bleach.
- Let the solution stand for 20 minutes, swishing every few minutes. Wet all surfaces.

3. Carefully empty the tank after 20 minutes, and rinse with warm water until you cannot detect any bleach smell. Dry with a clean cloth or paper towel.

4. Refill the water tank with cool water and replace on housing (see Filling Instructions above). Follow Operating Instructions to turn the humidifier ON.

5. To clean the humidifier base, pour out all excess water. Rinse thoroughly to remove any sediment or dirt. Wipe clean and dry with a clean cloth or paper towel. Do not use metal cleaning utensils or abrasive cleansers.

To Clean Aromatherapy Tray:

- Turn off and unplug your humidifier.
- Pull the tray handle to expose the full aromatherapy pad.

3. Remove the aromatherapy pad from the tray. If using the VICKS® VapoPads® Refill Scent Pads, gently remove old scent pad and discard.

4. Wash the in-unit aromatherapy pad thoroughly with warm water and mild soap to remove any residual essential oils.

STORAGE INSTRUCTIONS

When not using your humidifier for an extended period of time:

- Clean, rinse and thoroughly dry the humidifier as directed in weekly maintenance. DO NOT leave any water in the unit when storing. Leaving water in the unit may render the unit inoperable for the following season.
- Place the humidifier in the original carton and store in a cool, dry place.

If you have any questions regarding your product or would like to learn more about other Holmes® products, please contact our Consumer Service Department at 1-800-546-5637 or visit our website at www.holmesproducts.com.

TROUBLESHOOTING FREQUENTLY ASKED QUESTIONS

TROUBLESHOOTING		
Trouble	Probable Cause	Solution
• Water Leaks from tank.	☛ Tank/cap gasket is missing. ☛ Unit tilted or not leveled. ☛ Cap not tight enough. ☛ Tank water is Hot.	✓ Remove tank cap and replace or reposition gasket. ✓ Place unit if on a flat or leveled surface. ✓ Tighten the cap. ✓ Fill with cool water only.
• Crack in Tank.	☛ Hot water will cause tank to pressurize. ☛ Tanks will crack if hit or dropped.	✓ Fill with cool water only. ✓ Handle tank with care. If there is crack on tank, replace with a new tank.
• Film on Tank.	☛ Mineral deposits.	✓ Clean/disinfect tank as instructed in weekly cleaning instructions.
• Mist output minimal to none.	☛ Scale build up on transducer.	✓ Remove scale from the transducer.
• Reduced or no mist.	☛ Out of water. ☛ Setting too low. ☛ Transducer plate dirty.	✓ Fill tank. ✓ Increase setting to High. ✓ Clean transducer (refer to Cleaning and Maintenance Instructions).
• Appearance of minerals or "white dust"	☛ Tap water contains minerals that collect inside your humidifier. When the minerals are released into the air they often appear as white dust on your furniture.	✓ Use distilled water in your humidifier. This will help reduce the precipitation of minerals or "white dust".

FREQUENTLY ASKED QUESTIONS

Question	Answer
• What are the variables that affect run time?	The estimated run time for this humidifier is based on average room conditions. The actual run time of your humidifier is dependent on numerous variables such as: ✓ Air exchange in the room where the humidifier is placed. ✓ Room construction of the room where the humidifier is placed. ✓ Temperature of the room where the humidifier is placed. ✓ Humidity levels in the room where the humidifier is placed. ✓ Movement of occupants and the opening and closing of doors in the room where the humidifier is placed. ✓ Home furnishings in the room where the humidifier is placed.
• How do I remove film on water tank?	✓ See Daily Maintenance instructions. Regular cleaning is recommended.
• How can I extend the run time?	✓ Run your unit on the lowest setting. ✓ If your unit has electronics, set it to your desired humidity level. The unit will turn on and off, which will extend the run time. ✓ Fill the tank all the way full, place it on the base, let the water empty into the base until it stops bubbling, then refill the tank full again. This ensures maximum water capacity and will extend run time.

LIMPIEZA Y MANTENIMIENTO INSTRUCCIONES DE ALMACENAMIENTO

- Lleve la base de la unidad al fregadero. No sumerja la base en agua. Drene cualquier agua remanente y enjuague bien para eliminar cualquier sedimento o suciedad. Limpie y seque con un paño o una toalla de papel.
- Drene el agua del tanque en el fregadero y enjuáguelo bien. Limpie con un paño y séquelo con una toalla limpia de tela o de papel.
- Vuelva a colocar en la unidad y luego llene de nuevo el tanque con agua de la llave como se indica anteriormente en las instrucciones de llenado del tanque. No lo llene en exceso.
- Siga las instrucciones de uso para encender el humidificador.

Mantenimiento semanal:

Para extraer el sarro:

- Repita los pasos anteriores de mantenimiento diario.
- Limpie la base llenándola parcialmente con una taza de 250 ml (8 oz.) de vinagre blanco sin diluir. Deje reposar esta solución en la base por 20 min. miremos limpia todas las superficies inferiores con un cepillo suave (el cepillo no está incluido). Restriégue suavemente el área alrededor del transductor (situated in the base del humidificador) con un cepillo suave. Extraiga el sarro frotando la base con un paño húmedo con vinagre blanco sin diluir. (ver la Figura 3)
- Enjuague con agua tibia limpia para eliminar la solución limpiedora antes de desinfectar el tanque.

- Vacie cuidadosamente el tanque después de 20 minutos y enjuague hasta que ya no se pueda detectar el olor a cloro. Seque con un paño limpio o con una toalla de papel.
- Llene de nuevo el tanque con agua fría y vuelva a colocar en la caja (vea las instrucciones de llenado anteriores). Siga las Instrucciones de uso para encender el humidificador.
- Para limpiar la base del humidificador, vierta el agua remanente. Enjuague bien para eliminar cualquier sedimento o suciedad. Limpie y seque con un paño limpio o papel toalla. No utilice utensilios de limpieza de metal ni limpiadores abrasivos.

Para limpiar la bandeja de aromaterapia:

- Apaque y desenchufe su humidificador.
- Tire de la bandeja por el asa para expeler la almohadilla de aromaterapia completa.
- Refíre la almohadilla de aromaterapia de la bandeja. Si va a utilizar VICKS® VapoPads® Almohadillas Perfumadas, retire suavemente la almohadilla aromática vieja y deseche.
- Llene bien la almohadilla de aromaterapia en la unidad con agua tibia y detergente suave para eliminar cualquier aceite esencial remanente.

INSTRUCCIONES DE ALMACENAMIENTO

Cuando no utilice su humidificador durante un período prolongado de tiempo:

- Limpie, enjuague y seque bien el humidificador según las instrucciones en la sección de mantenimiento semanal. NO deje agua dentro de la unidad cuando la guarde. Si queda agua, la unidad podría quedar inutilizable para la próxima temporada.
- Coloque el humidificador en su empaque original y guardelo en un lugar fresco y seco.

WARRANTY INFORMATION

1 YEAR LIMITED WARRANTY

Sunbeam Products, Inc. warrants that for a period of one year from the date of purchase, this product will be free from defects in material and workmanship. Sunbeam, at its option, will repair or replace this product or any component of the product found to be defective during the warranty period. Replacement will be made with a new or remanufactured product or component. If the product is no longer available, replacement may be made with a similar product of equal or greater value. This is your exclusive warranty. Do NOT attempt to repair or adjust any electrical or mechanical functions on this product. Doing so will void this warranty.

This warranty is valid for the original retail purchaser from the date of initial retail purchase and is not transferable. Keep the original sales receipt. Proof of purchase is required to obtain warranty performance. Sunbeam dealers, service centers, or retail stores selling Sunbeam products do not have the right to alter, modify or any way change the terms and conditions of this warranty.

This warranty does not cover normal wear of parts or damage resulting from any of the following: negligent use or misuse of the product, use on improper voltage or current, use contrary to the operating instructions, disassembly, repair or alteration by anyone other than Sunbeam or an authorized Sunbeam service center. Further, the warranty does not cover: Acts of God, such as fire, flood, hurricanes and tornadoes.

What are the limits on Sunbeam's Liability?

Sunbeam shall not be liable for any incidental or consequential damages caused by the breach of any express, implied or statutory warranty or condition.

Except to the extent prohibited by applicable law, any implied warranty or condition of merchantability or fitness for a particular purpose is limited in duration to the duration of the above warranty. Sunbeam disclaims all other warranties, conditions or representations, express, implied, statutory or otherwise. Sunbeam shall not be liable for any damages of any kind resulting from the purchase, use or misuse of, or inability to use the product including incidental, special, consequential or similar damages or loss of profits, or for any breach of contract, fundamental or otherwise, or for any claim brought against purchaser by any other party. Some provinces, states or jurisdictions do not allow the exclusion or limitation of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above limitations or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights that vary from province to province, state to state or jurisdiction to jurisdiction.

How to Obtain Warranty Service

In the U.S.A.

If you have any questions regarding this warranty or would like to obtain warranty service, please visit our website at www.holmesproducts.com.

In the U.S.A., this warranty is offered by Sunbeam Products, Inc. located in Boca Raton, Florida 33431. If you have any other problem or claim in connection with this product, please write our Consumer Service Department.

PLEASE DO NOT RETURN THIS PRODUCT TO ANY OF THESE ADDRESSES OR TO THE PLACE OF PURCHASE.

IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

- Read all instructions before using the appliance.
- To protect against electric shock, do not place or immerse cord, plug, or appliance in water or other liquid. Do not plug in the cord with wet hands. Do not overfill the water tank.
- Plug the appliance directly into a 120VAC electrical outlet.
- This appliance is not intended for use by children or by persons with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge. Close supervision is necessary when any appliance is used near children. Children should be supervised to ensure that they do not play with the appliance. Keep the appliance and its cord out of reach of children.
- Never place humidifier in an area where it is accessible to children. Never use humidifier in a closed room, particularly where a child may be sleeping, resting, or playing (a closed room may result in excessive humidity).
- Keep the cord out of heavy traffic areas. To reduce risk of fire, never put the cord under rugs or near heat registers.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or has been damaged in any manner. Do not attempt to replace or splice a damaged cord. Return appliance to the manufacturer (see warranty) for examination, repair or adjustment.
- Do not place on or near wet surfaces, or near heat sources such as stoves, radiators, and heaters.
- Place your humidifier on an inside wall near an electrical outlet. The humidifier should be at least 4 inches (10 cm) away from the wall for best results.
- WARNING: Do not attempt to refill humidifier without first unplugging the unit from its electrical outlet. Failure to heed this warning may cause personal injury.
- Unplug from outlet when not in use, before putting on or taking off parts and before cleaning. To disconnect, turn any control to OFF, then unplug power cord from

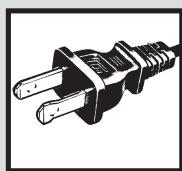

POLARIZED PLUG

This appliance has a polarized plug, (one blade is wider than the other). As a safety feature to reduce the risk of electrical shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature or modify the plug in any way. If the plug fits loosely into the AC outlet or if the AC outlet feels warm do not use that outlet.

MEDIDAS DE SEGURIDAD IMPORTANTES

Cuando se utilizan aparatos eléctricos siempre se debe tomar precauciones básicas de seguridad para reducir el riesgo de incendio, descarga eléctrica y daños personales, incluyendo las siguientes:

- Lee todas las instrucciones antes de utilizar el aparato.
- A fin de protegerse contra descarga eléctrica, no coloque ni sumerja el cable, los enchufes o el aparato en agua ni ningún otro líquido. No enjuague el cable con las manos mojadas. No llene en exceso el tanque de agua.
- Enchufe el aparato directamente a un tomacorriente de 120 VCA.
- Este aparato no está diseñado para ser utilizado por los niños ni por personas con su capacidad física, sensorial o mental reducida, o con falta de experiencia y conocimiento. Todo aparato utilizado cerca de los niños requiere la supervisión cercana de un adulto. Los niños deben ser supervisados para asegurarse que no jueguen con el aparato. Mantenga el aparato y su cable fuera del alcance de los niños.
- Nunca coloque el humidificador en área accesible para los niños. Nunca use el humidificador en una habitación cerrada, especialmente donde pueda haber un niño durmiendo, descansando, o jugando (una habitación cerrada puede resultar en humedad excesiva).
- Mantenga el cable fuera de las áreas de mucho tráfico. A fin de reducir el riesgo de incendios, no coloque el cable debajo de alfombras ni cerca de salidas de calor.
- No utilice ningún aparato con un cable o enchufe dañado, después de presentar un fallo en su funcionamiento o si se ha dañado de manera alguna. No intente reemplazar ni cortar un cable dañado. Devuelva el aparato al fabricante (consulte la garantía) para su revisión, reparación o ajuste.
- No coloque el humidificador sobre o cerca de fuentes de calor como estufas, radiadores y calefactores.
- Coloque su humidificador contra una pared interna cerca de un tomacorriente. El humidificador debe estar a lo menos 4 pulgadas (10 cm) de la pared para obtener el mejor resultado.
- ADVERTENCIA: No intente llenar nuevamente el

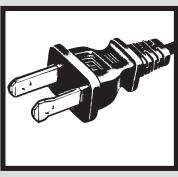

ENCHUFE POLARIZADO

Este aparato cuenta con un enchufe polarizado (un contacto es más ancho que el otro). Como una característica de diseño para fin de reducir el riesgo de descarga eléctrica, este enchufe está diseñado para entrar en un tomacorriente polarizado en un solo sentido. Si el enchufe no entra completamente en el tomacorriente, invierta el enchufe. Si aun no entra completamente, consulte a un electricista calificado. No intente ignorar esta característica de seguridad ni modificar el enchufe de manera alguna. Si el enchufe entra holgadamente en el tomacorriente de corriente alterna o si el tomacorriente de corriente alterna se siente caliente, no utilice ese tomacorriente.

FEATURES - OPERATIONS

outlet. Be sure to unplug the unit by pulling on the plug and not the cord.

- Do not block air inlet or outlet. Never drop or insert any object into any openings. Do not place hands, face or body directly over or near the outlet while unit is in operation.
- Do not use outdoors or for commercial purposes.
- Do not use appliance for other than intended use. Misuse can cause injuries.
- Always place humidifier on a dry, stable, level surface.
- WARNING: Failure to clean device per the cleaning instructions in the Cleaning Section may result in overheating or fire. This humidifier requires daily and weekly maintenance to operate appropriately. Refer to daily and weekly cleaning procedures. Use only cleaners and additives recommended by the manufacturer. Never use gasoline, glass cleaner, furniture polish, paint thinner, or other household solvents to clean any part of the humidifier.
- Never tilt, move, or attempt to empty unit while it is operating. Shut off and unplug before removing the water tank and moving the unit. Use both hands when carrying a full tank of water. Do not move unit after it has been used until unit cools completely.
- Do not use humidifier in an area where humidity level is in excess of 50%. Use a hygrometer, available at your local retailer, to measure the humidity.
- Never operate unit without water in the tank. Do not pour water in any openings other than the water tank.
- WARNING: Hot steam can cause serious burn injuries. Keep away from steam while in operation, especially children. Do not allow children access to the appliance during operation.
- Allow unit to cool before refilling water tank or maintenance, as the heater bulb is hot.
- Do not attempt to remove the water tank within 15 minutes after the humidifier is turned off and unplugged. Serious injury may result.
- WARNING: CHOKING HAZARD - Humidifier contains**

SAVE THESE INSTRUCTIONS HOUSEHOLD USE ONLY

NOTICES

- Do not allow the Moisture Outlet to directly face the wall. Moisture could cause damage, particularly to wallpaper.
- Keep unit away from surfaces that can be damaged by water and/or heat (such as wood floors). Place mat underneath the unit during use. Do not place humidifier under overhanging surfaces.
- Do not place the humidifier on a rug or carpet. The heat sink underneath the humidifier might cause the carpet to be discolored and may cause overheating of the unit.
- Excessive humidity in a room can cause water condensation on windows and some furniture. If this happens, turn the humidifier OFF.

POWER CORD INSTRUCTIONS:

A short power-supply cord or detachable power-supply cord is provided to reduce risks resulting from becoming entangled in or tripping over a longer cord. Longer detachable power-supply cords or extension cords are available and may be used if care is exercised in their use. If a long detachable power-supply cord or extension cord is used on short-cord models:

- The marked electrical rating of the detachable power-supply cord or extension cord should be at least as great as the electrical rating of the appliance;
- When the product is of the grounded type, the extension cord shall be a grounding type 3-wire cord; and
- The longer cord should be arranged so that it will not drape over the counter top or table top where it can be pulled on by children or tripped over unintentionally.

NOTE: To avoid white dust use only distilled water especially if:

- you suffer from respiratory problems or
- you live in an area where the water has a high mineral content.

PRE-OPERATING INSTRUCTIONS

- Be sure the humidifier is switched OFF and the unit is disconnected from the electrical outlet.
- Select a location for your humidifier, on a flat surface, about 4 inches (10 cm) away from the wall. DO NOT place the humidifier on a finished floor or near

An ultrasonic transducer atomizes water, producing refreshing visible cool/warm mist.

NOTE: A humidity level below 20% can be unhealthy and uncomfortable. The recommended humidity level is between 40%-60%.

NOTE: To avoid white dust use only distilled water especially if:

- you suffer from respiratory problems or
- you live in an area where the water has a high mineral content.

- High setting will produce the maximum moisture level and Low setting will produce the longest run time and quieter performance.

FCC STATEMENT

Potential for Radio/Television interference

This device complies with Part 18 of the FCC Rules. Operation is subject to the following two conditions: (1) This

CARACTERÍSTICAS - FUNCIONAMIENTO

- ADVERTENCIA: El vapor caliente puede causar quemaduras severas. Manténgase alejado del vapor, especialmente los niños, cuando el aparato esté en uso. No permita que los niños tengan acceso al aparato durante su uso.
- Desenchufe el aparato del tomacorriente cuando no esté en uso, antes de instalarlo o retirarle piezas y antes de limpiarlo. Para desconectar, gire todo control a la posición de apagado (OFF), luego desenchufe el cable del tomacorriente. Asegúrese de desenchufar la unidad tirando del enchufe y no del cable.
- Nunca obstruya la entrada y salida de aire. Nunca coloque ni inserte ningún objeto en una de las ranuras. No coloque las manos, la cara o el cuerpo directo sobre o cerca de la ranura cuando la unidad esté funcionando.
- Algunas personas tienen problemas al respirar cuando están expuestas a vapor. Mantenga la unidad alejada de superficies que puedan provocar la inhalación de vapor.
- ADVERTENCIA: RIESGO DE ASFIXIA - El humidificador contiene piezas pequeñas. Mantenga la bandeja de aromaterapia y las almohadillas de aromaterapia lejos de la mano de los niños.
- Siempre coloque el humidificador sobre una superficie nivelada, estable y seca.
- ADVERTENCIA: El no limpiar el aparato según las instrucciones en la sección de Limpieza, podría resultar en un sobrecalentamiento o incendio. Este humidificador requiere mantenimiento diario y semanal para funcionar correctamente. Consulte los procedimientos de limpieza diaria y semanal. Use solamente limpiadores y aditivos recomendados por el fabricante. Nunca use detergentes, gasolina, limpiador de vidrios, limpiador de muebles, diluyente de pintura u otro solvente doméstico para limpiar ninguna parte del humidificador.
- Nunca incline, mueva o intente vaciar la unidad mientras esté funcionando. Apague y desenchufe la unidad antes de retirar el tanque de agua y moverla. Use las dos manos cuando cargue un tanque lleno de agua. No mueva la unidad después de utilizarla hasta que se enfrie completamente.
- No use el humidificador en un área donde el nivel de humedad excede el 50%. Use un higrómetro, disponible en su tienda local, para medir la humedad.
- Coloque su humidificador contra una pared interna cerca de un tomacorriente. El humidificador debe estar a lo menos 4 pulgadas (10 cm) de la pared para obtener el mejor resultado.
- Nunca utilice la unidad sin agua en el tanque. No vierta agua en ninguna abertura que no sea la del tanque de agua.

CONSERVE ESTAS INSTRUCCIONES

SOLO PARA USO DOMÉSTICO

AVISOS

- No permite que la salida de humedad apunte directo a la pared. La humedad puede causar daños, en particular al empapelado.
- Mantenga la unidad alejada de superficies que puedan dañarse por el agua y/o el calor (como los pisos de madera). Coloque un tapete debajo de la unidad durante su uso. No coloque el humidificador debajo de superficies sobresalientes.
- No coloque el humidificador sobre una alfombra. El dispensador de calor debajo del humidificador puede causar que la alfombra se decore y que la unidad se caliente en exceso.
- El exceso de humedad en una habitación puede causar la condensación de agua en las ventanas y algunos muebles. Si esto sucede, apague el humidificador.
- Combinar la orientación o posición de la antena receptor.
- Aumentar la separación entre el producto y el receptor.
- Colocar el producto a un tomacorriente que pertenezca a un circuito diferente de aquel en el que está conectado el receptor.
- Consultar al distribuidor o a un técnico con experiencia en radio y televisión para obtener ayuda.

INSTRUCCIONES PARA EL CABLE DE ALIMENTACIÓN:

Un cable de alimentación corto o cable de alimentación separable puede ser provisto para reducir los riesgos de enredarse o tropezarse con un cable más largo. Existen cables de alimentación separables más largos o cables de extensión disponibles y estos pueden ser utilizados si se toma el cuidado debido en su uso. Si se utiliza un cable de alimentación largo separable o cable de extensión en modelos con cables cortos:

FEATURES - OPERATIONS

small parts. Keep aromatherapy tray and scented aromatherapy pads out of reach of children.

SAVE THESE INSTRUCTIONS HOUSEHOLD USE ONLY

NOTICES

- Do not allow the Moisture Outlet to directly face the wall. Moisture could cause damage, particularly to wallpaper.
- Keep unit away from surfaces that can be damaged by water and/or heat (such as wood floors). Place mat underneath the unit during use. Do not place humidifier under overhanging surfaces.
- Do not place the humidifier on a rug or carpet. The heat sink underneath the humidifier might cause the carpet to be discolored and may cause overheating of the unit.
- Excessive humidity in a room can cause water condensation on windows and some furniture. If this happens, turn the humidifier OFF.

POWER CORD INSTRUCTIONS:

These limits are designed to provide reasonable protection against harmful interference in a residential installation. The product generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the FCC rules, may cause harmful interference to radio communications. However, there is no guarantee that the interference will not occur in a particular installation. If the product does cause harmful interference to radio or television reception, which can be determined by turning the product on or off, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the product and the receiver.
- Connect the product into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

HOW ULTRASONIC WORKS:

An ultrasonic transducer atomizes water, producing refreshing visible cool/warm mist.

NOTE: A humidity level below 20% can be unhealthy and uncomfortable. The recommended humidity level is between 40%-60%.

NOTE: To avoid white dust use only distilled water especially if:

- you suffer from respiratory problems or
- you live in an area where the water has a high mineral content.

- High setting will produce the maximum moisture level and Low setting will produce the longest run time and quieter performance.

furniture, which can be damaged by too much moisture or water. Place on a moisture resistant surface.

Aromatherapy Tray

Your Holmes® Ultrasonic Humidifier includes an Aromatherapy Tray that is compatible with essential oils or VICKS® VapoPads® Refill Scent Pads for maximum comfort.

- Locate the Aromatherapy Tray on back side of the Humidifier Base (See Figure 1).
- Pull the tray handle to expose the full aromatherapy pad.
- Place 3-4 drops of essential oil directly onto the pad or place the VICKS® VapoPads® into the tray.
- Push the Aromatherapy Tray back into the closed position.

OPERATING INSTRUCTIONS

Mist Control

To turn the unit ON, turn the Mist Control Knob clockwise to increase mist output level. (•) is the highest mist output level.

Cool Mist/Warm Mist Control

Your humidifier can be selected to generate either cool mist or warm mist by pressing the Cool/Warm Mist Control Button (•). Each press of the button will switch between cool and warm mist, and the respective indicator will illuminate. Cool Mist Indicator Light will illuminate in BLUE when cool mist mode is activated. Warm Mist Indicator Light will illuminate in RED when warm mist mode is selected. You can also turn the Mist Nozzle in multiple directions to achieve your desired direction for mist output.

NOTE: The warm mist setting is not designed to be hot. It is just above the standard ambient room conditions to prevent the nasal passages from being too cool from the cool moisture.

NOTE: To shut the humidifier off, turn the Mist Control Knob to OFF. **WARNING:** DO NOT move the humidifier with water in the tank or the humidifier base. The moving action of the water may activate the water tank's release nozzle and overflow the humidifier base. This may cause the humidifier to function intermittently, or stop emitting mist. Should this occur, simply remove the excess water from the humidifier base.

- High setting will produce the maximum moisture level and Low setting will produce the longest run time and quieter performance.

PRE-OPERATING INSTRUCTIONS

1. Be sure the humidifier is switched OFF and the unit is disconnected from the electrical outlet.

2. Select a location for your humidifier, on a flat surface, about 4 inches (10 cm) away from the wall. DO NOT place the humidifier on a finished floor or near

- Cualquier cambio o modificación que no haya sido aprobada de forma explícita por la parte encargada del cumplimiento de las regulaciones pudiera invalidar la autoridad del usuario para utilizar el equipo.

CÓMO FUNCIONA EL SISTEMA ULTRÁSONICO:

Un transductor ultrasónico atomiza el agua y produce un refrescante vapor frío y visible.

NOTA: Un nivel de humedad menor al 20% puede ser nocivo e incómodo. El nivel de humedad recomendado es entre el 40% y el 60%.

NOTA: El ajuste de vapor caliente no está diseñado para ser caliente. Esto justifica por arriba de las condiciones ambientales normales para evitar que los conductos nasales se enfríen demasiado debido al vapor frío.

NOTA: Para evitar el polvo blanco, utilice agua destilada solamente, especialmente si: Sufre de problemas respiratorios o B) vive en un área donde el agua contiene un nivel alto de minerales.

NOTA: Para apagar el humidificador, gire la perilla de control de vapor hasta la posición de apagado (OFF).

ADVERTENCIA: NO MUEVA el humidificador cuando tenga agua en el tanque o en la base. La acción de movimiento podría activar la boquilla de vapor del tanque de agua y saturar la base del humidificador. Si sucede, el humidificador funcionaría intermitentemente y dejaría de emitir vapor. En este caso, simplemente elimine el exceso de agua de la base del humidificador.

INSTRUCCIONES ANTES DEL USO

- Asegúrese de que el humidificador esté apagado (OFF) y desenchufado del tomacorriente.
- Elija un lugar para su humidificador, sobre una superficie plana, aproximadamente a 4 pulgadas (10 cm) de distancia de la pared. NO coloque el humidificador sobre un piso pulido o cerca de un mueble, ya que lo puede dañar por el exceso de humedad o agua. Colóquelo sobre una superficie resistente a la hum
