Software NiceLabel Cloud

(content also available on <https://www.nicelabel.com/label-cloud>)

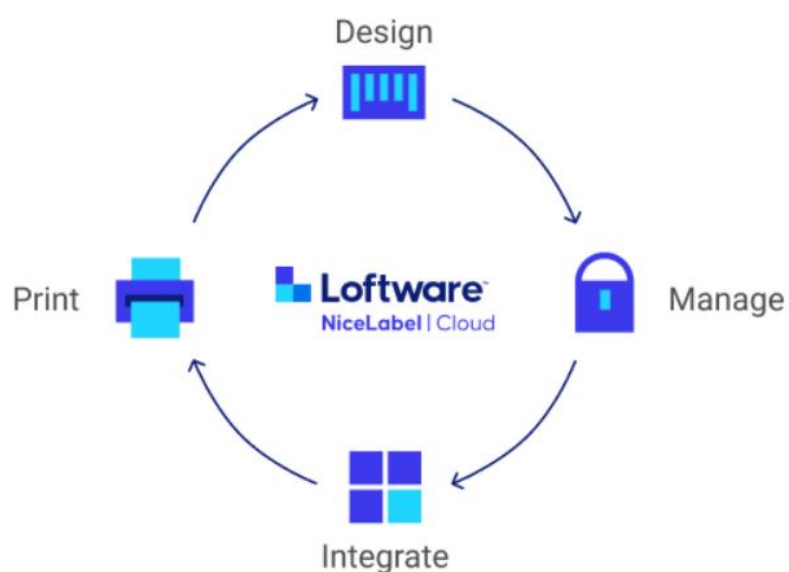

The simplest way to design and print labels

Software NiceLabel Cloud is the simplest, yet most comprehensive, cloud labeling solution on the market. It helps businesses of all sizes manage labeling, from label design to print and every step in between.

Main benefits of Software NiceLabel Cloud:

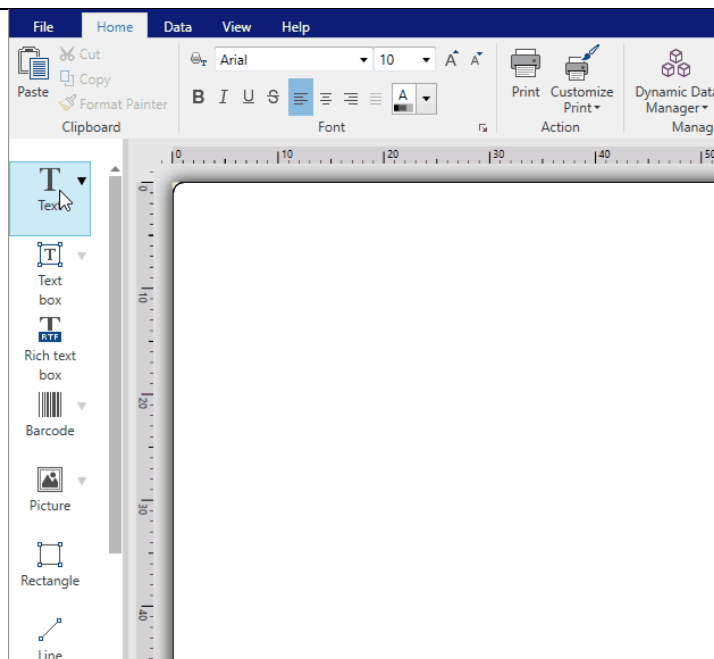

- Be up and running in minutes with minimal IT resources
- Simply design labels from any computer in any location
- Securely store and manage labels and data in the cloud
- Integrate labeling with your product data
- Easily scale printing across your business
- Pay on subscription and lower your TCO

From label template to print - everything you need to manage your labeling

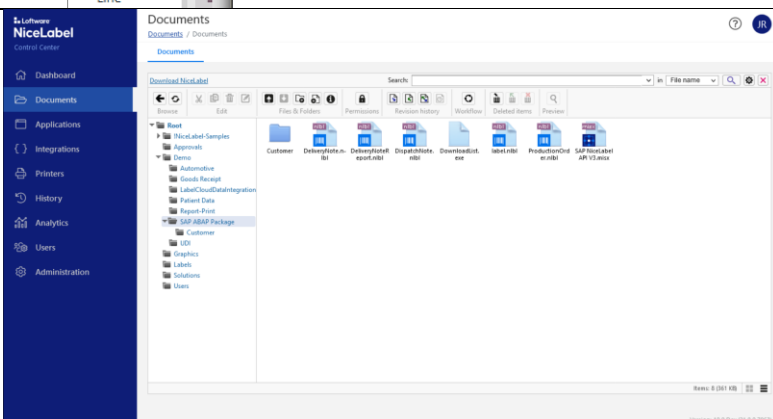

1. Easily design barcode labels in minutes

Software NiceLabel Cloud includes a built-in label designer that delivers a familiar Microsoft Word-like user experience. You can quickly design professional labels without IT help, no prior knowledge of barcoding or designer training necessary.

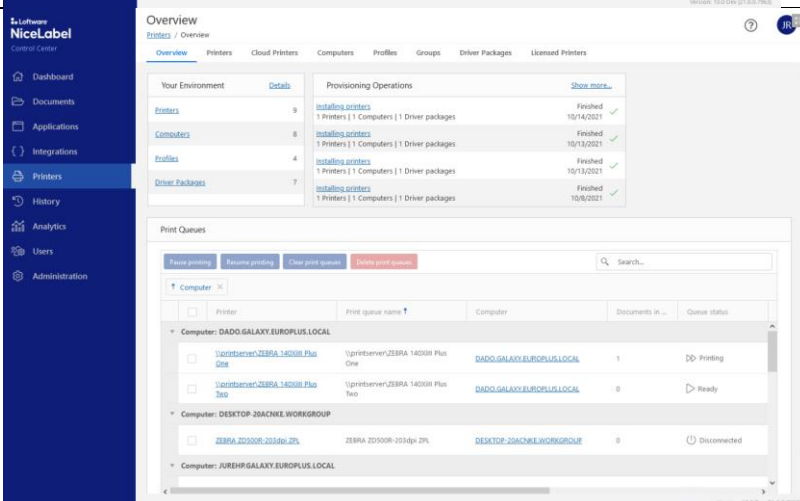

2. Centrally store your labels and access them from anywhere

Software NiceLabel Cloud contains a centralized storage system for all of your labels. Access the latest, up-to-date label templates anytime, anywhere, from a web browser.

3. Manage all your printers remotely via the web

The Control Center in Software NiceLabel Cloud saves you time and ensures your printers are ready to go. You can provision printers and update printer family drivers, manage printer settings for hundreds of printers and define role-based controls granting users access to their local printers.

4. Guarantee accuracy by integrating with your product data

Software NiceLabel Cloud integrates label printing with your product data, giving you a single source of truth and preventing errors and mislabeling.

Designed to meet the needs of businesses of all sizes, Software NiceLabel Cloud also enables you to integrate printing with your ERP system or other cloud or on premise business applications, such as SAP, MS Dynamics, Workday, NetSuite,...

ProdCode	Description
