Highlights

100% Ceramic grinders

The robust 100% ceramic grinders guarantee a moment of pure coffee indulgence for years to come. The ceramic material creates the ideal grind, which allows the water to flow through steadily, extracting the purest essence of the beans. And unlike other 'regular' grinders', the ceramic material prevents the coffee from overheating and tasting burnt.

Automatic Milk Frother

The Automatic Milk Frother will deliver your coffee's crowning glory at the touch of a button. Within seconds it will be topped with a silky, milk layer of the finest consistency - the ultimate lure for all cappuccino lovers.

Quick Heat Boiler

When time is of the essence, you can brew perfect espresso and cappuccino without the wait, thanks to the Quick Heat Boiler. The secret is in its light aluminum and stainless steel body, which can reach hot temperatures, fast.

10-settings adjustable grinder

When it comes to the fineness of the grind, this machine never fails to satisfy. Different coffee blends require different levels of granularity for the full flavour to unfold. So the grind granularity of this machine has ten adjustable settings – from the finest grind for a full-bodied espresso, to the coarsest for a lighter coffee.

Customize your coffee

Choose your ideal strength from the 5 different settings, select the length and the temperature. You can easily save your desired coffee length with the Memo Function for each

drink. Then every cup in the future will be customised exactly to your taste. You'll never have to remind it again, unlike the local barista.

Coffee at one touch

From Espresso to Cappuccino, there is an assortment of options waiting to satisfy your coffee cravings. Whether it's first thing in the morning or an after dinner treat, there's a taste for any time of the day, right at your fingertips.

Powder Option

Sometimes it's nice to have the option of a full-bodied, delicious coffee, without the caffeine kick. Thanks to the Powder Option you can make decaffeinated coffee whenever you please.
