

MSA is turning 100.  
**More importantly, Manuel is turning 30.**

During the damping-down operations two users of breathing protection from the Imst Town Fire Brigade were in action, each secured with an MSA AirGo self-contained breathing apparatus with an integrated alphaFP fall protection harness. The alphaFP harness prevented Manuel Wieser from a dangerous fall from a height of 6 metres and saved his life.

Since 1914, MSA's mission to protect people at work has never changed. As the leading global company dedicated to safety, we are proud of our heritage. But, it's our customers' lives we value the most.

**Protecting Lives for 100 Years.**
