

G1 INDUSTRIAL SCBA

READY WHEN YOU ARE

Industrial facilities demand dependable respiratory protection that is easy to use, comfortable to wear, and ready to go. The G1 Industrial SCBA delivers performance whether it is needed for standby emergencies or everyday work. Based on the G1 SCBA platform that has revolutionized the Fire Service, the G1 Industrial SCBA gives you the safety, comfort, and easy maintenance that your workers deserve.

From the Fire House to Your Facility

Chances are that your fire department has seen or switched to the G1 SCBA, which revolutionized the municipal and public fire service with breakthrough technology and comfort. This platform is now ready to meet the needs of your challenging work environment.

Ready for Your Teams

The G1 Industrial SCBA makes adoption and acceptance easy. Your teams will appreciate a lightweight, comfortable facepiece with an 86% field of view. We also designed our facepiece to fit over 80% of users in a medium size, making deployment and adoption much simpler.

Ready for Work

Whatever your application, the G1 Industrial SCBA offers unmatched comfort in a lightweight design. Chemical-resistant harness and cylinder options let you match your apparatus to your work, whether it be confined space, refining, hazmat, utility, or standby needs.

WE KNOW WHAT'S AT STAKE

SEE BETTER, COMMUNICATE BETTER

Wide, 86% field of view and speaking diaphragm improve awareness and communication.

FIT BETTER

Lightweight G1 Facepiece fits more than 80% of sample populations in a medium-size mask, and an open port design lets them breathe easier.

PROTECT BETTER

Regulator and facepiece design minimizes cross-contamination among multiple users.

CHOOSE BETTER

G1 Industrial SCBA offers multiple harness configuration options, including Nylon, to match your work.

WORK BETTER

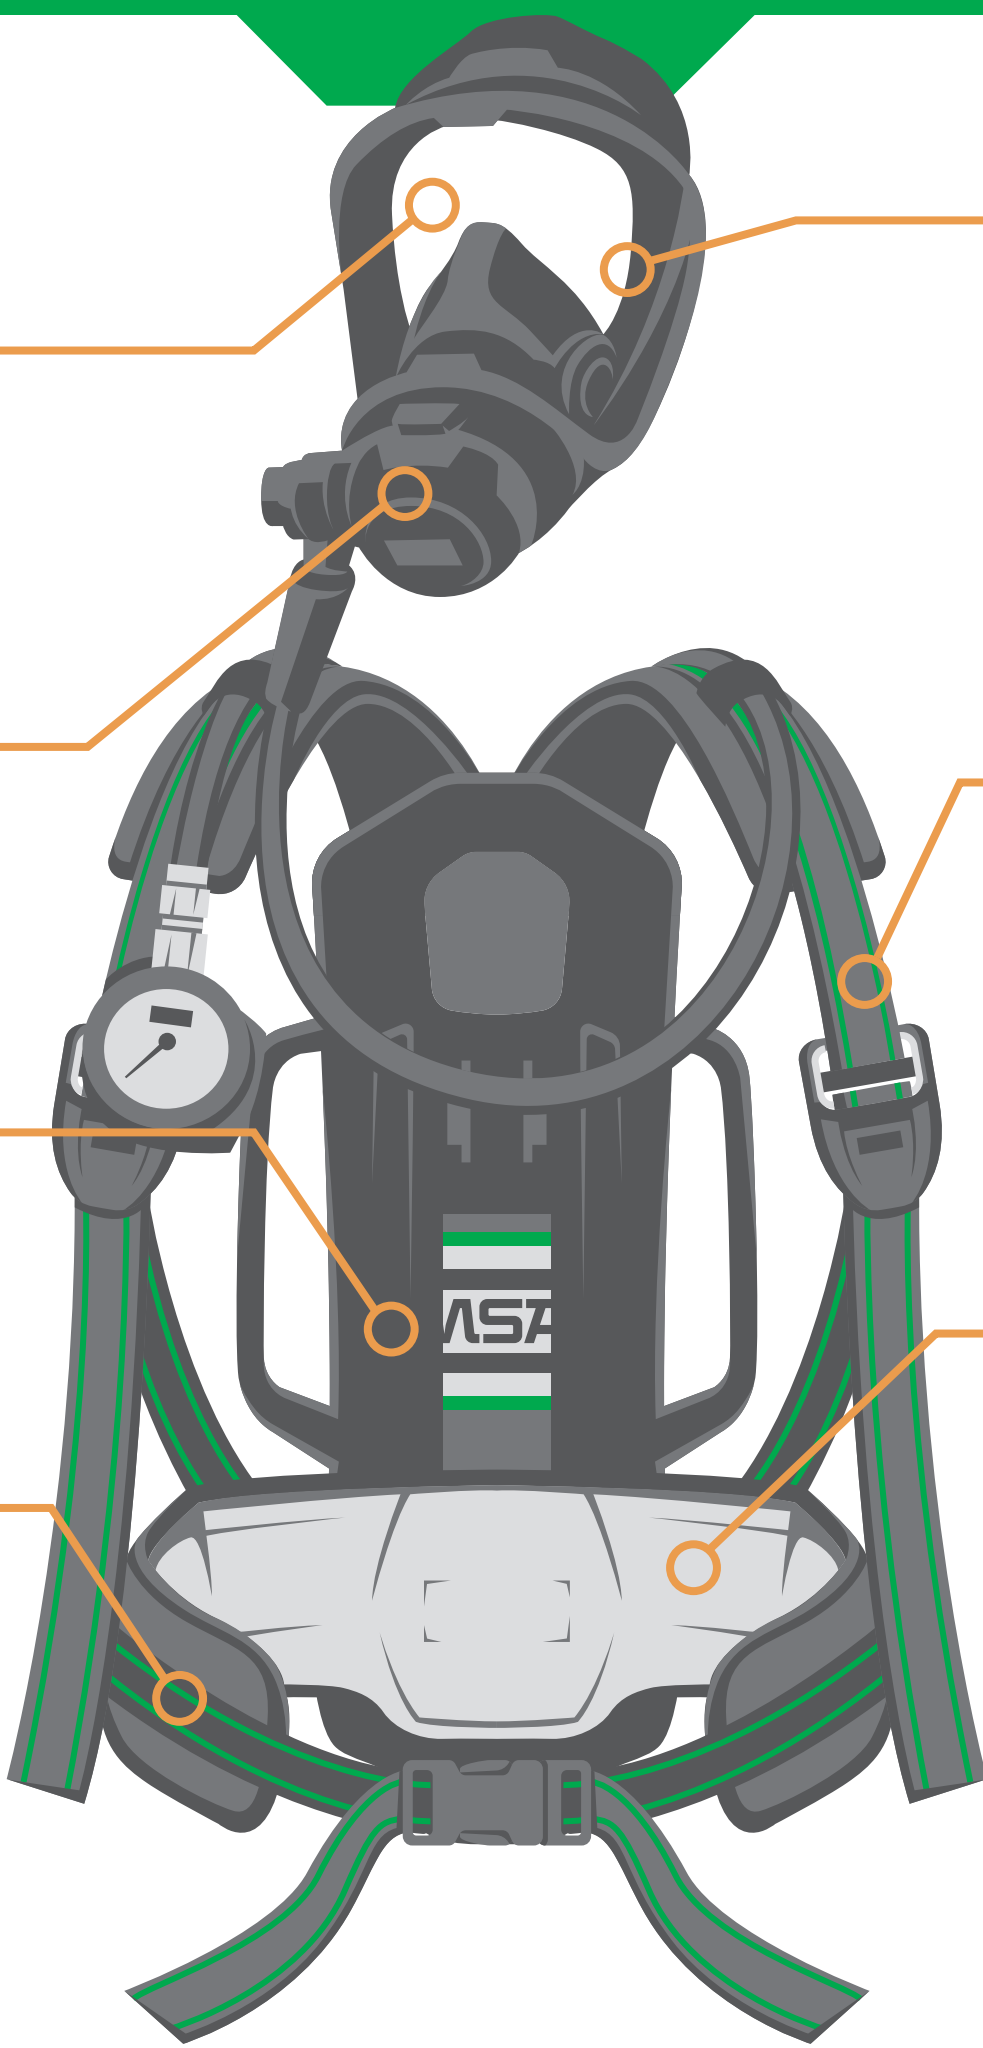

Lightweight, ergonomic design reduces stress and strain during extended work periods.

WEAR BETTER

Additional lumbar support, shoulder pad, and chest strap options allow for increased comfort during extended use.

DECON BETTER

NanoSphere-coated harness resists chemical permeation, and removable padding makes for easier decontamination, which saves maintenance time and expense.

Keeping You Safe, Even in the Most Dangerous Environments

The MSA G1 Industrial SCBA has simple, proven pneumatics that are easy to maintain and reliable. Real safety, however, is not only about air supply—it's about being able to see, work with less stress, and perform in challenging situations. The G1 Industrial SCBA delivers the performance to meet your challenge.

Customize an SCBA to Meet the Needs of Your Work

Whether your SCBA is used every day or is just there as a last line of defense, the G1 Industrial SCBA can meet the demands of your workplace in a flexible platform to keep your workers safe.

CONFIDENCE TODAY, CONFIDENCE TOMORROW

The MSA G1 Industrial SCBA has a 15-year warranty that is best in class.
