# SLS

## SingleLine SCOUT

### 2<sup>ND</sup> MEDIUM PRESSURE COUPLING

For second man connection or MSA RespiHood (rescue hood)

### SLOT FOR OPTIONAL SLS SAFETY KEY

Activation of motion detection

### SOUND CHAMBER

Different sound patterns for pressure related warnings and full alarm

### ULTRA BRIGHT BUDDY LIGHTS

Activated with alarm

### ELECTRONICAL PRESSURE SENSOR

Automatic activation with cylinder opening

### LUMINESCENT GAUGE

Easily read due to 20° angled face

### AUTOMATIC GAUGE LIGHTING

Indicates pressure state (green, yellow, red) when SLS is lifted and when passing a pressure threshold

### DISTRESS BUTTON

For manual alarm

### WIRELESS INTERFACE

For easy tracking and documentation

### BATTERY STATE INDICATION

Allows battery check without turning on the device
