AWARDWINNER: MSA A2 Software - alphaCONTROL 2 Next generation of respiratory protection monitoring software

BERLIN, April, 2017 – MSA is proud to announce that the MSA A2 Software ‘alphaCONTROL 2’ has been awarded with Innovation award IT – BEST OF 2017. alphaCONTROL 2 is a natural progression from the conventional tally board. It delivers all the information that a tally board supplies as well as monitoring the air consumption of individual users in combination with gas measurements.

alphaCONTROL 2 attaches great importance on the presentation of situation relevant information. The interactive concept allows the user to have the best possible understanding of a particular situation. Furthermore, the operation documentation is more reliable and efficient. An operational report can be easily created in seconds, directly in the Windows operated system.

alphaCONTROL 2 software is part of the alpha Personal Network. This respiratory protection monitoring system consists of modular and wireless components which can be individually integrated to enhance fire service operation and safety and capability as needed.

For further information about the new alphaCONTROL 2 software or the modular alpha Personal Network please contact your local MSA affiliate or visit MSAsafety.com.

About MSA

Established in 1914, MSA Safety Incorporated is the global leader in the development, manufacture and supply of safety products that protect people and facility infrastructures. Many MSA products integrate a combination of electronics, mechanical systems and advanced materials to protect users against hazardous or life-threatening situations. The company's comprehensive line of products is used by workers around the world in a broad range of markets, including the oil, gas and petrochemical industry, the fire service, the construction industry, mining and the military. MSA's core products include self-contained breathing apparatus, fixed gas and flame detection systems, portable gas detection instruments, industrial head protection products, fire and rescue helmets, and fall protection devices. With 2015 revenues of \$1.1 billion, MSA employs approximately 4,600 people worldwide. The company is headquartered north of Pittsburgh in Cranberry Township, Pa., and has manufacturing operations in the United States, Europe, Asia and Latin America. With more than 40 international locations, MSA realizes approximately half of its revenue from outside North America. For more information visit MSA's website at www.MSAsafety.com.
