Fas-Trac® III Suspension

Available now for V-Gard®, V-Gard GREEN, SmoothDome®,

Fas-Trac III Suspension

Fas-Trac® III Suspension is the Cure!

Introducing the Fas-Trac III Ratchet Suspension from MSA. Designed for use with market-leading MSA helmets, the Fas-Trac III suspension improves the user's head protection experience. Our extensive customer research showed the Fas-Trac III Suspension was preferred by 92% of users over what they were currently wearing because it improved helmet comfort, retention and stability.

While the part numbers for replacement suspensions have changed, there are **NO CHANGES** to MSA helmet/suspension assembly part numbers. Ordering information for Fas-Trac III Suspensions, whether as a replacement or within an available MSA helmet assembly, are listed in this bulletin.

Fas-Trac III Suspension Features

Here are just a few of the headache-free features of the Fas-Trac III Suspension and what users had to say:

Feature	User Feedback
Lower nape strap improves retention; it also adjusts for a custom fit on the back of the head.	"Fits lower on the back of the head. Helps helmets stay on when guys are leaning over."
Three levels of nape adjustment allow desired nape fit, without interfering with line of sight or other protective gear, such as earmuffs.	"Easier to use. More adjustment choices."
Ratchet offers smooth rotation, virtually no backlash, and grippable knob that can be adjusted—even with a gloved hand!	"Easier adjustment—less pressure needed to turn it."
Comfort pad separates the back of the ratchet from the rear of the head, cradling the head while encouraging airflow.	"The comfort pad prevents hair from getting pulled."
Largest sweatband surface area on the market covers the suspension headband and user's forehead for added comfort.	"More comfortable."
Optional sweatband accessory helps remove moisture and can be installed while the suspension is assembled in the helmet.	"The cloth sweatband accessory is awesome "

V-Gard® GREEN Protective Helmet

The world's first hard hat made from renewable resources

Both V-Gard GREEN Helmets and traditional V-Gard Helmets, regardless of material, offer the same trusted look and quality customers have come to expect from MSA. V-Gard and V-Gard GREEN helmets are third-party SEI certified as Type I, Class E under ANSI/ISEA Z89.1-2009 and CSA Z94.1-2005. The only difference is V-Gard GREEN Helmets are produced from green high-density polyethylene (GHDPE), rather than standard HDPE, like traditional V-Gard helmets are. GHDPE is a biopolymer made from sugar cane-based ethanol. GHDPE is a renewable resource because the rate of sugarcane growth is faster than the rate of harvest.

Classification: Type I

Market(s): General industry, manufacturing, repair and maintenance, construction, oil and gas,

shipbuilding, automotive, mining

Application: General purpose

Shell Material: Green high-density polyethylene (GHDPE) **Available Styles:** Slotted cap with 4-point Fas-Trac® III Suspension

Sizes: Standard (6-1/2" to 8")

Standards: ANSI/ISEA Z89.1-2009 (Class E); CSA Z94.1-2005 (Class E)

Certification: Third-party by SEI

Customization: Logos, striping and MSA accessories available

Replacement Suspensions: See page 11

On average, the production of each V-Gard GREEN helmet removes approximately 2 lbs. of CO_2 from the atmosphere, according the GHDPE material supplier.

V-Gard® Protective Caps and Hats

Classification: Type I

Application: General purpose **Shell Material:** Polyethylene

Available Styles: Slotted Cap; Slotted Full-Brim Hat

Sizes: Cap: Small $(6 - 7\frac{1}{3})$; Standard $(6\frac{1}{2} - 8)$; Large $(7 - 8\frac{1}{3})$ Hat: Standard $(6\frac{1}{2} - 8)$

Standards: ANSI/ISEA Z89.1-2009 (Class E); CSA Z94.1-2005 (Class E)

Certification: Third-party by SEI

Customization: Imprinting and striping available

Replacement Suspensions: See page 11

NOTE: Small and Large V-Gard Caps are NOT CSA-certified. Standard-size V-Gard Caps and Hats are CSA-certified when assembled with MSA's Fas-Trac III or 1-Touch Suspension ONLY.

¹Certified to CSA.

A WARNING

Do not mix suspension and helmet sizes. Make sure the sizes match, i.e., standard-size suspension with standard-size helmet. Use only the indicated MSA suspension and replacement suspension in a MSA helmet. Failure to comply with the above will reduce the energy-absorbing ability of the protective helmet, which can result in serious injury or death.

²V-Gard Cap/Hat meets the voluntary standard for hi-visibility as prescribed by ANSI/ISEA Z89.1-2009. Look for the official hi-visibility marking [HV] on the helmet's ANSI label.

NOTE: Small and Large V-Gard Caps are NOT CSA-certified. Standard size V-Gard Caps and Hats are CSA-certified when assembled with MSA's Fas-Trac, Fas-Trac III or 1-Touch Suspension ONLY.

Freedom Series[™] and Specialty V-Gard Protective Caps and Hats

NFPA 70E is a work practice; it is not a standard and does not specify any test methods. No products "meet" NFPA 70E—the user simply follows the practice of NFPA 70E. When it comes to head protection, NFPA 70E recommends that a user wear a Class E hard hat in order to follow this work practice.

Replacement Suspensions for MSA Safety Helmets

MSA Fas-Trac® III Suspension

Ensuring your workforce wears their safety helmets can be a real headache. MSA, the leading provider of protective helmets, has the perfect remedy: the Fas-Trac III Suspension. No more pressure headaches. No more pulled hair. No more helmets falling off. No more sacrificing worker comfort for safety.

- Sweatband fully covers the headband and worker's forehead.
- 2 Three levels of nape strap height adjustment for customized fit.
- Solution Lower Laboratory Labo
- 4 Smooth ratchet rotation and secure hold.

Learn how the Fas-Trac III Suspension can relieve your headaches. Visit **MSAsafety.com/FasTrac.**

The new Fas-Trac III sweatband accessory helps keep workers cool and dry.

	Part No.	Product Specifics
FAS-TRAC III SWEATBAND ACCESSORY	10153518	 For use with MSA Fas-Trac® III Suspension only Moisture-wicking sweatband accessory Can be attached/replaced while suspension is assembled in helmet 10/package

A WARNING

Use only the indicated MSA suspension in your MSA helmet. Do not mix suspension sizes and helmet sizes (i.e., putting a standard sized suspension in a large helmet or any other mismatched combination). Do not use competitor suspensions in MSA helmets. Inspect your suspension frequently. Suspensions should be replaced every 12 months, regardless of inspection results. Replace immediately (along with the helmet), if an impact has occurred. Failure to follow these instructions will reduce the energy absorbing ability of the protective helmet to receive impact, and could result in serious injury or death.

For additional information on the Fas-Trac III Suspension, please visit our website at MSASafety.com KEYWORD: FasTrac. You can also contact MSA Customer Service at 1-800-MSA-2222.

Note: This Bulletin contains only a general description of the products shown. While uses and performance capabilities are described, under no circumstances shall the products be used by untrained or unqualified individuals and not until the product instructions including any warnings or cautions provided have been thoroughly read and understood. Only they contain the complete and detailed information concerning proper use and care of these products.
