Attractively Priced.*

**MSA** **SOLARIS™**

- Compact, lightweight. Weighs under 8 ounces with dimensions of 4-1/2"H x 2-1/2"W x 1-1/4"D.
- Tough and Durable. Rubberized armored case helps absorb impact if dropped, superior protection against liquid and dust ingress. IP 65 rated.
- Ultimate flexibility: 1, 2, 3 & 4 gas configurations available for O<sub>2</sub>, H<sub>2</sub>S, CO and combustible gas.
- Patented MSA sensor technology inside.
- Outstanding triple alarm system: 100+ dB alarm horn, super-bright LED alarms and standard vibrating alarm.
- Superior display, exceptional contrast, large easy-to-read, alphanumeric, easily-understood commands.
- Intuitive one-button calibration. Has built-in logic.
- Lithium ion battery with run time of 14+ hours, outperforms other batteries in extreme conditions.
- MSA TIM<sup>®</sup> System compatible. Datalog option available.
- Optional powered sampling pump probe, uses proven MSA technology.
- Two-year all-inclusive warranty.
