Why to Sell

Ease of Use/Calibrate & Test Effortlessly

- Simple to use, with touch-free operation for calibration or bump tests.
- Color touch screen enhances user experience at the test stand.
- Cylinder holder visual indicators provide at-a-glance system status.

Cost of Ownership/Save Time, Save Gas & Save Money

- Exceeds 50% reduction in cost of ownership, including calibration gas expenses when combined with high-performance MSA XCell Sensors.
- Faster total testing of ALTAIR Family Gas Detectors.
- Manage GALAXY System banks for calibration gas cylinder expiration dates and pressure levels.
- Test up to 10 gas detectors simultaneously with patented test stand/cylinder holder gas delivery system.
- RFID-tagged calibration gas cylinders to help ensure use of correct gas.

Proactive Safety/Command, Control, Configure

- MSA Link Pro Software provides software configuration for easy setup, including set point upload and calibration gas and expiration warnings.
- The GALAXY GX2 System automatically calibrates ALTAIR 4X and ALTAIR 5X Gas Detectors at set intervals, ideal for emergency applications.

Advanced MSA Link™ Pro Software/Analyze All Data, Any Time

- View test and exposure data, session and periodic logs at a glance.
- Print detailed calibration, bump test and health reports and open each entry for additional information.
- Live filtering can be viewed, printed and saved as PDF documents.
- USB secure digital key has four-digit password.
