## **ALTAIR<sup>®</sup> 4XR Multigas Detector is Real Time: Safety at the Speed of Now**

---

*BERLIN, January, 2017* – The new MSA ALTAIR 4XR Multigas Detector provides real time event notification using Bluetooth connectivity. This tough and reliable 4-gas monitor with proven MSA XCell Sensors is among the fastest in the world, and when paired with the MSA ALTAIR Connect app, can text alarm notifications to supervisors, team members or other users. Maintenance, operational support and compliance are quickly and reliably enhanced; real-time alarm and event notifications let you deliver an entirely new level of safety.

The ALTAIR 4XR Multigas Detector is MSA's most rugged gas detector yet, including the ability to survive a 7.5 m drop, an IP68 rating, a Military Grade Rating (MIL-STD-810G) and a comprehensive 4 year warranty.

MSA XCell Sensors are unequaled in today's market, enabling faster response, shorter span calibrations and longer life, saving you time and money. ASIC sensor technology provides greater control, higher performance, plug-and-play capability, greater RF immunity, and end-of-sensor-life warning to minimize downtime and inventory replacement.

### *About MSA*

---

*Established in 1914, MSA Safety Incorporated is the global leader in the development, manufacture and supply of safety products that protect people and facility infrastructures. Many MSA products integrate a combination of electronics, mechanical systems and advanced materials to protect users against hazardous or life-threatening situations. The company's comprehensive line of products is used by workers around the world in a broad range of markets, including the oil, gas and petrochemical industry, the fire service, the construction industry, mining and the military. MSA's core products include self-contained breathing apparatus, fixed gas and flame detection systems, portable gas detection instruments, industrial head protection products, fire and rescue helmets, and fall protection*

*devices. With 2015 revenues of \$1.1 billion, MSA employs approximately 4,600 people worldwide. The company is headquartered north of Pittsburgh in Cranberry Township, Pa., and has manufacturing operations in the United States, Europe, Asia and Latin America. With more than 40 international locations, MSA realizes approximately half of its revenue from outside North America.
