Fax No. 01355 272999

Company: MSA Co.

Address: 1100 Cranberry Woods Drive, Cranberry Township, PA 16066, USA.

Related Approval Certificate: **BSEN360/08/002**

Title of component: **Workman PFL 7ft - 12 ft range webbing SRL**

Intended design change: The Inner Frame of the Workman PFL SRL, MSA Part No. 10042137, currently manufactured and supplied by PenSafe ON, Ca to be replaced by an identical component manufactured and supplied by Yoke Industrial Corp, Taiwan.

Accept/reject amendment: Accepted amendment

Comments: In order to ensure continued homogeneity of the product, a full series of tests to EN360:2002 were successfully carried out at NEL on samples of the Workman PFL SRL supplied by MSA Co fitted with the alternative Inner Frame component. See NEL Test Report Ref. MUOP Rev.1 dated 8th March 2013.

Details of this amendment and associated documentation have been included in the product technical file retained at TUV NEL Ltd. This certificate may be used in conjunction with CE Approval Certificates **BSEN360/08/002** as proof of continued conformance with PPE Directive 89/686/EEC

Fax No. 01355 272999

Company: MSA Co.
Address: 1100 Cranberry Woods Drive, Cranberry Township, PA 16066, USA

Related Approval Certificate: **BSEN360/08/002**

Title of component: **Workman PFL Webbing SRL Range**

Intended amendment/s:

- 1) Include alternative locking pawls and sperrad parts manufactured by a different vendor and manufacturing process using powder metal technology parts
- 2) Minor design/shape changes to the nozzle of the outer casing
- 3) Updates to Product Technical File including
 - Drawing Updates
 - Revised User Instructions
 - Supplier documentation
 - Updates to Quality System Documentation

Accept/reject amendment: Accepted

Comments: Amendments 1) and 2) above were checked through dynamic testing and endurance testing to EN360:2002 (on the 7' and 12' models) to ensure continued compliance with PPE Directive 89/686/EEC. (See TUV NEL Test Report MTYX)

Details of this amendment have been included in the product Technical File in accordance with the PPE Directive 89/686/EEC.

This certificate may be used in conjunction with CE approval certificate **BSEN360/08/002** as proof of continued conformance with PPE Directive 89/686/EEC.

Product Retractable Fall Arrester
Model Workman PFL

Parameters The Workman PFL self retracting lanyard is fitted with 0.75" (19 mm) wide x 0.103" (2.6 mm) thick nylon webbing safety line which extends and retracts freely from the drum until a sudden extraction of the lanyard activates the brake system, which will occur in the case of an accidental fall by the user. The brake shock absorbing feature ensures a cushioned arrest is achieved. The unit's suspension eye is fitted with a load indicator which activates in the event there is an arrest on the system. The free end of the webbing lanyard is fitted with a CE approved BSEN 362 connector to enable connection to the user via suitable PPE. The Workman PFL is supplied in a range of lengths between 7 ft (2.13 m) and 12 ft (3.65 m).

Category of PPE III

Method of Test Tests were carried out to the appropriate clauses of BSEN360:2002.

Remarks The above mentioned product fulfils the essential health and safety requirements of directive 89/686/EEC and its amendments.
