

# MSA V-FIT™ Full Body Harness

Technical Datasheet

With distinctive design and extended padding, V-Fit range of full body harnesses provides high-level comfort for users in all applications. The V-FIT is designed for users with a maximum capacity up to 140 kg including tools.

## Features & Benefits

FEATURES	BENEFITS
2-point harness: fall arrest rated textile loops at the front and Aluminum back D-ring	Ensures the right protection for the job
Harness version with two lateral Aluminum D-rings on waist pad	For work positioning
Shoulder and leg padding	For increased comfort
Fully adjustable shoulder, chest strap and thigh straps	For perfect sizing and fit
Dual load indicator	Alerts you when the harness has been involved in a fall event
Bayonet style buckles with locking engagement window	For easy adjustment and secure connection
Elastic web keepers	Provide flexibility to manage excess webbing
A label cover	Protects harness label
Two tool holder loops at the back of the waist belt	Provide more tool holding options
Keepers on shoulder straps	Parking points for your lanyard
