Subject: ClearCommand® Product Line – Discontinuation

MSA has been informed by a primary supplier in the manufacturing of the ClearCommand® Product line of the discontinuation of certain key components. As a result, MSA will begin the process of discontinuing all ClearCommand® product lines between 2020 and 2021. MSA has made a “last-time” purchase on high demand stocked parts. Once the parts are depleted from stock, MSA will no longer be able to sell, support or service the units, and the parts will become obsolete.

Product Lines affected include:

ClearCommand® Communication Systems
ClearCommand® Helmet Communication Systems

ClearCommand® Part numbers ordered on “last-time” purchase.

Part Numbers	
10023055	10051290
10024074	10092733
10026265	10108643
10042903	10126347
10042922	10144672
10045662	10144675
10045664	10144676
10051289	10175626

MSA will continue to sell all other ClearCommand® parts (not explicitly listed above) until current inventory is depleted – at that time, additional inventory will not be purchased or supported. Please check with MSA Customer Service on availability and current stock levels of any and all ClearCommand® Products.

As always, please contact MSA with any questions. MSA appreciates your support and understanding as we navigate changes to the ClearCommand® Communication product lines.
