¹Meet the voluntary standard for hi-visibility as prescribed by ANSI/ISEA Z89.1-2009. Look for the official hi-visibility marking [HV] on the helmet's ANSI label.

²Standard-size V-Gard Caps and Hats are CSA-certified when assembled with MSA's Fas-Trac III or 1-Touch Suspension ONLY.

Don't be a hot mess!

The Fas-Trac III Suspension offers a sweat-wicking accessory that will help keep you cool! And, our sweatband offers additional forehead coverage and perforation for added comfort.

For additional information on MSA's products, please contact MSA Customer Service at 1-800-MSA-2222.

SoundControl® FormFit II Earplugs

are a great choice for hearing protection in hot, humid working conditions because they are light, yet offer high hearing protection levels.¹

Not Cool: Heat Illness

Every year, thousands of workers become sick from exposure to heat. Heat illnesses like heat stroke and exhaustion are preventable. To help you understand heat illness and protective measures, download the

FREE Heat Safety app from the Occupational Safety and Health Administration (OSHA): https://www.osha.gov/SLTC/heatillness/heat_index/heat_app.html.

The app calculates your **worksite heat index**, and displays a **risk level** to outdoor workers based on your inputs. It also provides reminders about **protective measures** needed to prevent heat-related illness.

¹When worn as indicated.

²CSA International certified models are denoted with a  symbol
