

Steps for updating MSA A2 Software

1. Download SETUP_UPDATE_MSA_A2_1.5.8 and install patch version of the software. NOTE: Previous version of MSA A2 software is installed
2. Download SETUP_FULL_MSA_A2_1.5.8 and install full version of the software. NOTE: Use when a customer has not previously installed MSA A2 Software.
3. If the computer is connected to the internet, MSA A2 Software will ask if you would like to update as part of startup. Follow prompts to install the update.

To download the latest version, please visit your MSA website and navigate to the “Software Download” site using the main navigation.

A2 Software Release Notes
