

# ALTAIR<sup>®</sup> 5X Multigas Detector

With MSA XCell<sup>®</sup> Sensor Technology & PID

## IT'S WHAT'S INSIDE THAT COUNTS

*MSA's ALTAIR 5X Multigas Detector is now available with PID sensor option. Driven by the most advanced technology available in any portable gas detector on the market, the ALTAIR 5X up to 6 gas detector outlasts the competition and delivers the most functionality with integrated XCell Sensors, PID and Bluetooth technology to meet current and future needs.*

### Built upon Durability

- Internally-integrated pump with recessed pump inlet minimizes snag hazards and break points
- Full 3-year warranty on detector and LEL, O<sub>2</sub>, CO, H<sub>2</sub>S, SO<sub>2</sub>, NO<sub>2</sub>, and IR sensors
- Rugged housing withstands 3 m drop test
- Easy to operate

### Powered by Performance

- 4-year sensor life on LEL, O<sub>2</sub>, CO (and variants), H<sub>2</sub>S (and variant), SO<sub>2</sub>, NO<sub>2</sub>, and IR sensors – 60% longer than industry average!
- 3-year sensor life on NH<sub>3</sub> and Cl<sub>2</sub>
- Advanced PID and IR sensor options
- MSA-exclusive instrument end-of-sensor-life warning to reduce instrument downtime
- MSA-exclusive MotionAlert and InstantAlert features for additional user safety
- 40% less calibration gas used per minute than industry average

### Flexibility to meet your Needs

- Monitors up to 6 gases simultaneously
- Interchangeable plug-and-play sensor slots (XCell Sensors)
- Wide range of sensors to cover your needs
- Bluetooth connection now standard on all new ALTAIR 5X Detectors
- New MSA Android App available to remotely monitor or configure detectors
- Color or monochrome display
- Compatibility with GALAXY GX2 Test System calibration test stands, MSA Link Software and MSA Link Pro Software for fleet management

### Revolutionizing Sensor Technology

- Sensor response and clear times < 15 seconds on LEL, O<sub>2</sub>, CO, H<sub>2</sub>S, NO<sub>2</sub>, and SO<sub>2</sub> – 50% faster than industry average!
- Industry-first 60-second span calibration time for LEL, O<sub>2</sub>, CO, H<sub>2</sub>S, NO<sub>2</sub>, and SO<sub>2</sub>
- Typical cost savings of more than 50% on calibration gas, replacement sensors and maintenance
- Greater signal stability and repeatability within changing or extreme environmental conditions

Description	Part Number
<b>ALTAIR 5X with integral pump, data logging, charger, tubing, 3-year warranty</b>	
LEL, O <sub>2</sub> , CO, H <sub>2</sub> S - Color Display	10119614
LEL, O <sub>2</sub> , CO, H <sub>2</sub> S, CO <sub>2</sub> - Color Display	10119611
LEL, O <sub>2</sub> , CO, H <sub>2</sub> S, PID - Color Display	10166730
LEL, O <sub>2</sub> , CO, H <sub>2</sub> S, SO <sub>2</sub> - Color Display	10119616
<b>Additional ALTAIR 5X versions are available, for monitoring of up to 6 gas!</b>
