

Advantage[®] 420 Half-Mask Respirator

NIOSH-Certified

	FEATURES	BENEFITS
SIMPLICITY	Only three major components	Reduced cost of ownership (fewer parts, ease of maintenance)
	Patent-pending unique harness assembly	Three simple donning steps
	User-friendly drop-down harness option	Allows user to remove facepiece and rest it safely against chest while maintaining use of head protection
	Personal fit lock-down harness option	Provides user with option of locking in a size; respirator can be reused without further adjustments
COMFORT	Curved neck buckles	Adds greater comfort and reduces neck abrasion
	Smooth design ComforTop headband	Eliminates pressure points on head when head protection is worn
	Multi-ethnic face seal based on proposed NIOSH test panel	Fits a broad range of facial shapes globally
	Wide comfortable straps	Minimizes twisting and retains shape after multiple washings
	Chin cup with built-in moisture release	Reduces slippage of facepiece in hot humid conditions
	Latex-free	Eliminates latex-related allergic reaction
SAFETY	UniBond one-piece facepiece made of soft over-molded LIM silicone and rigid nylon	Eliminates multiple leak points and offers excellent stability on user's face
	Textured inner facepiece seal	Maintains secure facepiece fit and reduces slippage
	No loose or dangling straps after donning	Eliminates interference and provides greater visibility
	Indirect exhalation valve	Provides downward path of exhaled humid air; reduces fogging on faceshield lens
FLEXIBILITY	Innovative yoke and harness design	Enables quick and easy switch between lock-down and drop-down options
	Low-profile design	Integrates extremely well with other PPE, such as eyewear, goggles, head protection, and faceshields
	Adjustable ComforTop headband and three facepiece sizes	Provides precise adaptation to different head sizes and facial contours
	NIOSH-certified for use with both plastic Advantage bayonet and metal Comfo threaded cartridges	Allows respirator customization to meet user preferences

Note: this bulletin contains only a general description of the products shown. While uses and performance capabilities are described, under no circumstances shall the products be used by untrained or unqualified individuals and not until the product instructions including any warnings or cautions provided have been thoroughly read and understood. Only they contain the complete and detailed information concerning proper use and care of these products.
