

Your expertise. For the safety solutions of tomorrow.

MSA stands for the development, production and sales of professional safety equipment and gas detection technology: We are „The Safety Company“. We have been developing products that save lives for over 100 years – from innovative harness systems to smart gas detection devices. Customers in 140 countries put their lives in our hands every day. Our more than 4,700 employees in 42 locations worldwide accordingly take on great responsibility. Together we pursue one objective: We make the lives of workers in action safer.

For our team in **Berlin**, Germany we are looking for a highly skilled and motivated

Software Test Technician / Software Tester (f/m)

Your task in our team

- You develop and execute manual and automated tests for web applications.
- You prepare infrastructure and create test cases for automated tests.
- You build and enhance our test capability by preparing software packages, simulators and other test equipment for present and future testing needs as well as efficiency gains.

Your profile: Expertise meets experience

- You are a trained IT specialist, preferably certified in software testing, or you have proven experience in software quality assurance.
- You have completed some training in informal and formal testing methods.
- You have experience using test case management software.
- You know how to write bug reports using a ticketing system.
- You have experience in creating and maintaining physical and software test infrastructure.
- You are fluent in English and German.
- Preferably, you have experience in automated test development and in innovating test methodology or workflow. In addition, you know the requirements to test-traceability.
- Preferably, you have mechanical design skills.
- You are willing to travel about 10% of your work time.

MSA as an employer: What makes us unique

Only with the best employees we are able to remain a leader of innovation. We provide the ideal environment for our employees:

- **Excellent facilities:** Our Research & Development team in Berlin works with state-of-the-art IT infrastructure.
- **Individual career paths:** We offer various development prospects on the basis of personal wishes and talent.
- **Flexible working hours:** Alongside our flexitime model, there is also the option of working from home.
- **Swift decisions:** We combine the stability of an established company with the functioning of a young technology enterprise.
- **Fantastic team:** Benefit from the diversity of your highly qualified colleagues and work with them to further hone your skills!

Interested?

We are looking forward to receiving your application. Please send your application documents in English with details of your desired salary and earliest start date by e-mail to: careers-europe@msasafety.com
