

Audi-Larm[®] Bell Screw Upgrade Kit

part no.
10040817

Installation Instructions

CAUTION

An MSA certified repair technician must perform this upgrade. Improper installation may prevent the alarm from functioning properly.

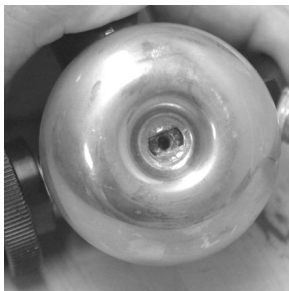

REMOVING THE OLD BELL SCREW AND WASHER

1. Using a flat blade screwdriver, unthread the existing screw and lock-washer holding the bell to the Audi-Larm housing. Discard the screw and washer. **Do not remove the bell from alarm housing.**

INSTALLING NEW BELL SCREW (P/N 10040954)

1. Ensure that bell is aligned with the raised boss (mounting pad) on the alarm housing. The bell must not touch the alarm housing at any point.

2. Using an inch pound torque wrench and a 5/16 standard 6-point socket, thread the new screw into the alarm housing.

3. Torque the new screw to 100± 5 inch pounds.

4. Check the bell to ensure that it is tight. You must not be able to rotate or tilt the bell by hand.

Should you encounter difficulty with this upgrade, please contact MSA Customer Service toll-free at 1-877-MSA-3473.

Be Sure.
