N5A New Yorker

Wear the original,
live the tradition.

N5A New Yorker

N6A Houston

Handcrafted to
meet today's
NFPA
performance
requirements.

All Cairns Helmets feature:

- The Cairns 5-year shell replacement warranty
- Non-corroding, high temperature-resistant faceshield/goggle hardware
- Durable helmet hanger that fits on large hooks and resists bending
- Minimal parts for lower service cost and easier maintenance

N6A Houston (NFPA)

N5A New Yorker (OSHA)

100% top-grain steer hide

High temperature-resistant urethane foam

Lexan outer dome

ABS inner liner

Sewn-over
wire reinforcement

The N6A Houston is NFPA 1971-2007 certified. The N5A New Yorker is OSHA 1977 certified.

Leather Forever!

Since 1836, Cairns has been the original manufacturer of leather firefighting helmets. Houston and New Yorker helmets retain the same authentic look and quality that generation after generation of firefighters have relied upon.

Quality Craftsmanship

Every Cairns leather helmet is individually handcrafted. Every helmet is ready to provide you with years of dependable service.

Handcrafting begins with the shell

- The New Yorker and Houston shells are constructed of top-grain steer hide and impregnated with a natural resin system, which is sealed and over-coated with a colored high-luster finish system.
- The crown is hand-sewn to the one-piece brim section. Showing attention to detail in every stitch, the brim is embossed with original fire service vine pattern.
- The thermal impact liner is then installed within the leather crown. The thermal impact liner dramatically increases the levels of protection where you need it most.
- The Cairns six-way overhead strap suspension system reduces shock transmission at the top of the helmet while providing a deep, comfortable fit.
- Complete your unique helmet with the comfort pad kit supplied with every helmet. Use of these pads provides a superior fit and feel that do not come in a typical fire helmet.
