

TACTICAL THERMAL IMAGING TRAINING FOR FIREFIGHTERS

Thermal Imaging

Thermal imaging cameras are the latest technology to provide lifesaving fireground information. The information provided by this tool must be correctly interpreted for safe use. Proper training for safe and effective operation with this new, state-of-the-art technology is critical to correctly understand what the thermal imager indicates about the environment and its hazards.

MSA, in conjunction with SAFE-IR, the premier leader in thermal imaging training for firefighting, has developed a training course specifically designed for your new MSA Evolution TIC.

Training

This comprehensive two-day training is customized to the needs of your department and provides intense individual instruction in the use of specific TICs used by your department.

Topics covered include:

- ☆ Navigation
- ☆ Search & Rescue
- ☆ History of thermal imaging
- ☆ Size-up techniques
- ☆ Overhaul techniques
- ☆ Tactical considerations
- ☆ Navigation safety techniques
- ☆ IR theory-How can we see through smoke?
- ☆ Care & Maintenance
- ☆ Firefighters are given the opportunity to apply this knowledge first hand in live fire conditions
- ☆ Proper interpretation of thermal images & how they relate to environmental conditions
- ☆ What to do in case of an equipment failure
- ☆ Limitations of TIC technology & how to overcome
- ☆ Effective fireground decision making
- ☆ Warning signs - for catastrophic events - what to look for

The Instructors

All of the SAFE-IR instructors are highly qualified, experienced firefighters from fire departments across America. They bring vast product knowledge and a wealth of practical experience in the use of thermal imagers in the fire service today. SAFE-IR instructors have trained hundreds of fire departments, both paid and volunteer in the U.S. and Canada in the safe and practical use of thermal imagers. Many of the instructors are also known on the national level as lecturers and instructors at the FDIC and Firehouse Expo.

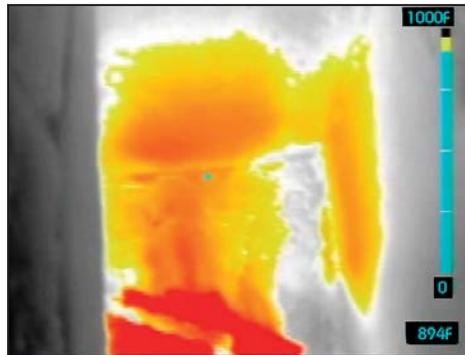

Testimonials

"Hands on — nothing teaches like hands on!"

"Instructors were very professional! A credit to the fire service."

"This was one of the best drills I have ever had."

"Good common sense 'real life' approach by experienced, well-qualified firefighters."

Registration

To order thermal imaging training for your department contact SAFE-IR directly or your MSA distributor and these experts will coordinate all the logistical arrangements with your department.
