External face shield

Ratchet headband

Wool neck curtain

Neck curtain must be worn to comply with EN 443:2008 flame test requirements

XP LED lamp

Communication systems

Aluminized neck curtain

FUEGO Structural Fire-fighting Helmet

Engineered and produced in MSA GALLET, World leader in Head Protection, FUEGO is the perfect head protection solution for Fire, Rescue and Emergency Services demanding high performance as well as cost effectiveness without compromise.

Thanks to its extremely simple design, basic maintenance and adjustment procedures enable the wearer to confidently adjust and secure the helmet safely prior to use (with or without wearing SCBA mask).

CE approved according to EN 443:2008 standard, using high quality materials for all of its elements, FUEGO provides a very high level of protection against the main risks encountered in structural fire-fighting operations: heat, flame, shock, electrical hazards.

Its light weight and flexibility make it also a good solution for other operations such as road traffic collision rescue, medical assistance and other rescue missions.

Technical specifications

Performances

■ Helmet

- CE marking according to PPE directive 89/686
- Tested according to EN 443:2008, type A
- Optional requirements (depending on model)
 - Very low Temperatures (-30 °C)
 - Chemical products (C)
