

MSA M7 I-HUD Receiver

Heads' up – your lights are on

Key Product Features

- Wireless M7 I-HUD Receiver contoured shape fits securely inside firefighter's Ultra Elite® Facepiece
- Nearly 40% lighter than external M7 HUD Receiver
- Placement inside facepiece eliminates snag point
- Unit automatically awakes and sleeps based upon pairing with SCBA
- Wireless magnetic radio transfers actual SCBA data via IEEE 802.11 network
- Enhanced light pattern for safety and security differentiation
- Displays SCBA cylinder pressure in quarter-cylinder increments
- If telemetry-equipped PASS device is used, M7 I-HUD Receiver displays evacuation alarm
- Red "buddy lights" in three locations alert other firefighters as to low cylinder pressure
- Powered by single disposable CR2 lithium battery
- Low battery condition displays via single LED flash on display's left side; low battery SCBA condition displays as double flash
- TEST function button to verify functionality before use

*Because every life has a **purpose...***

New M7 I-HUD Durability Testing

- M7 I-HUD Receiver survives 6-ft drop test when mounted inside Ultra Elite Facepiece
- IP67-rated to withstand extreme use conditions
- Vibration testing to NFPA 1981 standards
- Protection against short-time water submersion for thorough facepiece cleaning
