

## Your expertise. For the safety solutions of tomorrow.

*MSA stands for the development, production and sales of professional safety equipment and gas detection technology: We are „The Safety Company“. We have been developing products that save lives for over 100 years – from innovative harness systems to smart gas detection devices. Customers in 140 countries put their lives in our hands every day. Our more than 4,700 employees in 42 locations worldwide accordingly take on great responsibility. Together we pursue one objective: We make the lives of workers in action safer.*

For our team in **Berlin**, Germany, we are looking for a highly skilled and motivated

## **Mechatronics Technician (f/m) – Production and Building Technology**

### Your task in our team

---

- You are mainly responsible for repairs, maintenance and servicing of production equipment, such as machines, fixtures and high-pressure workstations. You perform troubleshooting and maintenance independently and in accordance with safety regulations and maintenance plans.
- You support the production of special machines, independently implementing projects according to the specifications. You make use of your technical understanding, your mechanical processing skills and your knowledge of control cabinet construction.
- To support the production of devices, you read and create technical drawings, contribute to constructive brainstorming and use your skills in mechanical processing and thermal material processing.
- You use your knowledge of pneumatic, electro-pneumatic, and hydraulic control and automation techniques to program and read small control systems and to adapt mechanical and electrical components.
- You are responsible for testing and maintenance of the building technology, such as sprinkler systems and exhaust air systems.

### Your profile: Expertise meets experience

---

- You completed a professional training as a mechatronics technician.
- You have at least 5 years of professional experience in the field of production engineering.
- You have knowledge in metalworking as well as in electrical engineering.
- Preferably, you have knowledge in the fields of high-pressure, pneumatics and hydraulics.

### MSA as an employer: What makes us unique

---

Only with the best employees we are able to remain a leader of innovation. We provide the ideal environment for our employees:

- **Individual career paths:** We offer various development prospects on the basis of personal wishes and talent.
- **Flexible working hours:** Alongside our flexitime model, there is also the option of working from home.
- **Swift decisions:** We combine the stability of an established company with the functioning of a young technology enterprise.
- **Fantastic team:** Benefit from the diversity of your highly qualified colleagues and work with them to further hone your skills!
