

Your expertise. For the safety solutions of tomorrow.

MSA stands for the development, production and sales of professional safety equipment and gas detection technology: We are „The Safety Company“. We have been developing products that save lives for over 100 years – from innovative harness systems to smart gas detection devices. Customers in 140 countries put their lives in our hands every day. Our more than 4,700 employees in 42 locations worldwide accordingly take on great responsibility. Together we pursue one objective: We make the lives of workers in action safer.

For our team in **Berlin**, Germany, we are looking for a highly skilled and motivated

Production Supervisor / Value Stream Engineer (f/m)

Your task in our team

- In this leadership role, you manage 2-3 departments with 10 production lines. You are the responsible contact person for about 30 colleagues, supporting them by regular communication and meetings to perform well in daily operations.
- You are in charge of recruitment, employee retention and engagement to support our goal of operational excellence.
- You conduct regular performance appraisals, providing constructive, direct, and professional feedback. If needed, you initiate appropriate corrective action.
- You drive process optimization and improve standards using and promoting Continuous Improvement and Lean Management methodologies in your teams.
- You support health, safety and environmental protection.
- You help enhance your colleagues' skills through focused training and development measures.
- You maintain a culture of "Quality comes first".
- You participate in company initiatives and assist other departments with cross-functional tasks.
- You are budget responsible for your departments.

Your profile: Expertise meets experience

- You have completed an Engineer's or Technician's degree in Lean Management, a Master's degree is preferred.
- You have lean experience.
- You have two or more years of leadership experience.
- You have experience using Continuous Improvement methodology.
- Preferably, you have a professional background in mechanical or electrical engineering.

MSA as an employer: What makes us unique

Only with the best employees we are able to remain a leader of innovation. We provide the ideal environment for our employees:

- **Individual career paths:** We offer various development prospects on the basis of personal wishes and talent.
- **Swift decisions:** We combine the stability of an established company with the functioning of a young technology enterprise.
- **Fantastic team:** Benefit from the diversity of your highly qualified colleagues and work with them to further hone your skills!
