

## Your expertise. For the safety solutions of tomorrow.

*MSA stands for the development, production and sales of professional safety equipment and gas detection technology: We are „The Safety Company“. We have been developing products that save lives for over 100 years – from innovative harness systems to smart gas detection devices. Customers in 140 countries put their lives in our hands every day. Our more than 4,700 employees in 42 locations worldwide accordingly take on great responsibility. Together we pursue one objective: We make the lives of workers in action safer.*

For our team in **Berlin**, Germany, we are looking for a highly skilled and motivated

## SAP MMPP Analyst (f/m)

### Your task in our team

---

- You support the production and materials management needs, and address these needs using global processes.
- You participate in production and materials management related projects and drive enhancements.
- Together with other stakeholders and end users, you analyze, develop, test and implement software solutions and applications to satisfy MSA's global business requirements in line with SAP's Best Practice.
- You research the SAP system and other resources to bring innovative solutions to business requirements and implement business process improvements.
- You consult with stakeholders and end users to determine business process and application development requirements. You act as their contact person throughout the project and ensure that requirements and progress are communicated accurately to the key stakeholders.
- You work pro-actively with the business side to understand their strategic direction and how to support the execution of their strategies most effectively.
- You comprehend and perform challenging configuration tasks and testing and resolve complex issues, reported by users in a timely manner.
- You successfully handle multiple projects, completing them on time, on budget and exceeding customer expectations.

### Your profile: Expertise meets experience

---

- You have completed a Bachelor Degree or equivalent in Information Science or a related discipline. An MBA is preferred.
- You have in depth knowledge of the SAP modules PP, MM, QM, PS and WM. Strong knowledge in PP and WM will be given highest consideration.
- You have working knowledge of the SAP modules SD, FICO, CRM and related integration points.
- You have excellent verbal and written communication skills in English (required) and in German (very much preferred).
- You have excellent analytical and problem solving skills as well as the ability to recognize, respect and adapt to cultural differences.
- Preferably, you have knowledge of Procure to Pay, ABAP workbench and IDOCs.
- You are willing to travel at least 25 % of your work time, both domestically and internationally.

### MSA as an employer: What makes us unique

---

Only with the best employees we are able to remain a leader of innovation. We provide the ideal environment for our employees:

- **Individual career paths:** We offer various development prospects on the basis of personal wishes and talent.
- **Flexible working hours:** Alongside our flexitime model, there is also the option of working from home.
- **Swift decisions:** We combine the stability of an established company with the functioning of a young technology enterprise.
- **Fantastic team:** Benefit from the diversity of your highly qualified colleagues and work with them to further hone your skills!

### Interested?
