

OptimAir® TL Powered Air-Purifying Respirator

MSA's NIOSH-approved powered air-purifying respirator (PAPR) with loose-fitting hoods and tight-fitting facepieces helps to protect against particulates, toxic gases and vapors, or a combination.

Smart Features for Intuitive Use:

- The OptimAir TL's flow rate can adjust automatically for altitude, and cartridge type through built in smart sensors
- Both audible and visual alarms alert the user if there is a low flow, or low battery voltage

Comfort:

- Low profile system reduces bulk for mobility in tight spaces
- Waist belt helps distribute weight evenly for worker comfort

Versatility:

- Low-profile hood options reduce ear coverage area, allowing for the use of other equipment that may be needed for auditory protection or enhancement.
- Full hood options can be used broadly across heavy industrial applications and clean environments

Cartridges and Accessory Options

- Cartridge service life for OV on MSA cartridge calculator
- HE (Hi-Efficiency)
- Acid gas/organic vapor plus HE
- Acid gas/ammonia/formaldehyde plus HE
- Decon waist belt with optional buckles
- Decon cover for blower and hose

WE KNOW WHAT'S AT STAKE.

OptimAir TL Powered Respirator

NIOSH-APPROVED

A variety of hood materials, styles and configurations are **all** NIOSH-approved. A choice of hose connection is also available. Unit has an APF of 1,000 (Assigned Protection Factor) for tight-fitting facepieces and full coverage single and double bib hoods. Low Profile Hoods have an APF of 25.

Tight-fitting facepiece approvals include the MSA Ultra-Elite®, Advantage® 3100 and Advantage 4100.

Key components

- 1 Audible and visible low-flow alarm
- 2 Standard battery has a minimum run time of 4-hours regardless of cartridge being used
- 3 Audible and visible low-battery voltage alarm
- 4 Combination cartridge switch adjusts for proper air-flow requirements.
- 5 Blower, battery, and cartridges share common platform with no external cables required
- 6 Ergonomic housing design includes contoured blower housing for secure and comfortable fit against user's back
