To: MSA Canada, End Users
Subject: Portable Instrument Repair Price including Pricing Spreadsheet
Date: December 1, 2015

Dear Valued End User:

Attached is our new Flat Fee List for Portable Instrument Service on page 2 of this notification which takes effect January 1, 2016.

As was the case when we originally launched this program, the Portable Instrument Repair Policy has no bearing on repairs performed by authorized RITE Repair Centres. RITE Repair Centres can establish, or maintain, their own pricing structure and policies regarding Portable Gas Detection repairs.

We request that all units sent to us for repair be accompanied with a Purchase Order, Credit Card Number or direction on how to charge for the work performed for the amount listed on the Price Schedule. This will speed up the process to return your equipment to you as quickly as possible. If our examination reveals that all that is required is a Calibration to your unit then we will charge you \$ 168.00 CAD. There are no itemized Estimates or Quotations provided for items with a Flat Fee price

The Repair Centre will charge a fee of **\$ 97.00 CAD** to inspect any portable detector that arrives at our facility where the repair or calibration work is declined; **however this fee will be waived** should the End User provide proof of purchasing a new replacement MSA Portable Detector.

Feel free to call the MSA Edmonton Repair Centre at (888) 396-1067 or the Toronto Repair Centre at (800) 672-4678 for further details or questions.

We, the MSA Canada Repair Centres, appreciate our business partnership with your organization and look forward to continuing efforts of servicing our customers.

Sincerely,
Jim Clark

Manager Canada Repair Service NA
