Doing good together

June, 2015 – INTERSCHUTZ, the leading international trade fair for fire protection and disaster control was held in Hanover from 8 to 13 June. Numerous visitors visited our stand and benefited from the opportunity to discover and try out the latest products and safety solutions, as well as to hold expert discussions.

In addition to the daily draw to win a Gallet F1 XF fire helmet, good deeds were also done. A Gallet F1 XF helmet in the INTERSCHUTZ design was made especially for the event. In return for a small donation of €1, visitors were entered into the draw and thereby supporting the International Search and Rescue Foundation (I.S.A.R.). The I.S.A.R. Germany Foundation is a voluntary association of volunteer rescue specialists and is funded entirely by donations and sponsoring.

Numerous visitors donated raising €3,500 in total. The proceeds will be going directly to the I.S.A.R. Foundation in the next few days. MSA will also be donating equipment worth €10,000 (helmets for rescue crews, fall protection devices and filtering half masks).

The unique INTERSCHUTZ-design helmet was won by Mr Manuel Kuprian from Lieboch, Austria, congratulations.

About MSA

Established in 1914, MSA is the global leader in the development, manufacture and supply of safety products that protect people and facility infrastructures. Many MSA products integrate a combination of electronics, mechanical systems and advanced materials to protect users against hazardous or life-threatening situations. The company's comprehensive line of products is used by workers around the world in a broad range of industries, including the fire service, the oil, gas and petrochemical industry, construction, mining and utilities, as well as the military. Principal products include self-contained breathing apparatus, fixed gas and flame detection systems, handheld gas detection instruments, head protection products, fall protection devices and thermal imaging cameras.

MSA, based north of Pittsburgh in Cranberry Township, Pa., has annual sales of approximately \$1.2 billion, manufacturing operations in the United States, Europe, Asia and Latin America, and 42 international locations.
