

MSA HUB - Cloud Registration Quick Start Guide

1. Connecting a PC to the MSA HUB

2. Connecting the MSA HUB to the Internet

3. Registering the MSA HUB in the A2 Software

For local MSA contacts please visit MSAsafety.com

Order No.: 10204592/00

Connecting a PC to the MSA HUB: Turn on the **MSA HUB** by screwing the power cable into the **MSA HUB** and

pluging the wire into the socket

1.0 On the computer, scan for WiFi and select the MSA HUB SSID network. Enter the SSID that is written on the MSA HUB type label.

a) Connect to MSA HUB wifi network

b) Open the HUB on the right side

c) The WiFi Key is inside the HUB

d) Enter the Key You found Inside the Hub

Open the MSA A2 Software.

Click on the **MSA Hub tile** to access and/or change MSA HUB settings.

Connecting the MSA HUB to the internet: Use one of the following options to connect the MSA HUB to the

2.0 Connect an Ethernet cable to the MSA HUB.

Insert a SIM card into the MSA HUB. Open the HUB Insert the SIM card into the SIM indication Inside the HUB

a) Open the MSA A2 Software and click on the MSA Hub tile.
