TechnaCurv Hi-Viz Construction Harness
Part No. 10050125

TECHNACURV® HI-VIZ CONSTRUCTION HARNESS

This harness throws a curve to the ordinary construction harness with many features never before seen:

- **Curvilinear Comfort System** combines curvilinear torso webbing and adjustable Y back D-locator pad keeps the shoulder webbing away from the neck preventing chaffing and providing greater comfort
- **Visco Elastic Shoulder padding** automatically adjusts to every curve of your body, offering superior comfort throughout the life of the harness
- **Sorbtek fabric on the shoulder padding** wicks moisture away from the body
- **Integral belt with Dual-Durometer back pad** for superior comfort and back support
- **Designed with downward adjusting torso straps** to ease adjustments
- **Bright green webbing** for high visibility
- **Soft, flexible webbing** allows the harness to move with you as you work for increased
- **Utilizes variable width webbing** in the sub-pelvic area to increase comfort and support during suspension/work positioning
- **Additional webbing length** to the torso and leg straps providing a wider range of adjustments for the perfect fit
- **Two integral Lanyard Clips**
- **Meets or exceeds** OSHA regulations, ANSI Z359.1, and is CSA certified

All these features combine to provide you with the most comfortable, versatile, unique, and safe harness available today!
