

Top Ten Reasons To Choose Cairns®

Top Ten Reasons

1 **Impact Protection**

Only Cairns offers the most complete system for absorbing an impact. The helmet shell, impact cap, tube-lock, and suspension straps work as an energy-absorbing system to protect you. The greatest testament to Cairns helmets are the countless lives saved by the “above and beyond” top-and-side impact protection and penetration resistance of the industry’s Number One helmet.

2 **Thermal Protection**

Every Cairns helmet provides the extra protection of a thermal impact cap. A Cairns helmet with an impact cap is 66% cooler than a fire helmet without a thermal impact cap. So, protect an important part of your body from heat.

3 **Eye Protection**

Only Cairns helmets are available with the revolutionary patent-pending Defender Visor—retractable, full-coverage, close-fitting eye protection that meets both NFPA and ANSI standards. By complementing helmets with a full line of conventional faceshields and goggles, Cairns is the clear leader in firefighters’ eye and face protection.

4 **Shell Release System**

This patented safety system found only on Cairns helmets provides an extra margin of safety and protection for you if the helmet shell becomes lodged during firefighting.

To Choose Cairns

Comfort

Cairns helmets are well known for their comfort, ride, and weight distribution. You can benefit from our decades of experience resulting in a highly refined helmet with unparalleled wearability allowing you to focus on the job at hand.

Quality

All Cairns helmets are known for their quality—from design to manufacture. For example, you can “feel” the quality of our 100% handcrafted leather helmets, the durability of our hardware, and the strength of other components used on all our fire helmets.

User-Friendly

Routine maintenance is easy and fast with Cairns helmets, from easy-to-remove headband liners to the use of minimal parts in helmet construction. To aid with compliance to the NFPA 1851 standard on care and maintenance of fire helmets, MSA offers a free guide to NFPA 1851 compliance for Cairns helmets, with an optional on-line certification. Visit www.MSAnet.com for all the details.

Selection

Cairns offers the most complete line of fire helmets—from leathers to traditional and modern styles, from thermoplastic to fiberglass and Kevlar composites. No one else can match our selection. Just ask for your favorite style.

Top Ten Reasons To Choose Cairns

9

Warranty

Cairns stands behind our product with a 5-year shell replacement warranty and additional lifetime coverage on components. We lead the way with warranty.

10

Heritage

Since 1836, Cairns has been designing and manufacturing high-quality fire helmets. No other helmet manufacturer has our experience and history in the fire service. More firefighters choose Cairns than any other type of fire helmet.

At Cairns, safety is our tradition.

So choose Cairns for the ultimate reason — YOUR safety!
